Maybank Kim Eng lauds govt decision on EV incentives in Budget 2022

According to head of regional equity research Anand Pathmakanthan, Maybank Kim Eng has applauded the government's decision to give full exemption of import duty, excise duty, as well as sales tax for electric vehicles (EVs) as it seeks to support the local EV industry. The government initiatives will kick start the infrastructure investment by various parties for the EV space. Malaysia is a bit slow to address the EV issue when the rest of ASEAN countries have got so many policies in place. This initiative would be good to the economy, would be good for stocks in this sector as well. This was in reference to Finance Minister Tengku Datuk Seri Zafrul's who in his Budget 2022 presentation in Parliament on Friday (Oct 29), said a 100% road tax exemption will also be given to EVs. And that the government sees the potential of EV as it is energy efficient and that it also helps to reduce air pollution. The government is also giving tax income exemption for individuals of up to RM2,500 on the cost of purchase, installation, rental, hire purchase as well as subscription fees for EV charging facilities. The government will extend the 100% sales tax exemption for completely knocked down (CKD) passenger vehicles and a 50% discount for completely built-up (CBU) cars, including multi-purpose vehicles (MPVs) and sports utility vehicles (SUVs) for six months until June 30 next year. In view of this, Maybank Investment has maintained its positive outlook on the automotive sector. The extended sales tax exemption announcement is welcoming but the timing of the announcement is relatively off. This would affect vehicle sales in Nov-Dec 2021, as prospective buyers will not be rushed to place orders before the earlier deadline of Dec 31, 2021.

Return of GST not only way to tackle revenue issue – Tricor's Dr Veerinderjeet Singh

According to Tricor Malaysia chairman Dr Veerinderjeet Singh, bringing back the goods and services tax (GST) is not the only answer to Malaysia's revenue issue but is only one of many that can be introduced. Speaking at the Malaysian Economic Association's (MEA) 2022 Post-Budget Dialogue, he said that his suggestion for the way forward is to examine the existing sales and services tax (SST) and expand it a little bit – but this year might not be the right time – to cover a lot more services over time and integrate it to have the attributes of GST. In other words, there is some kind of harmonisation that has to occur but it might take three years. He reminded participants that there was a particular issue with profiteering in the previous implementation of GST. He said the strength of the consumption tax is built into its multistage mechanism, which forces traders to come onboard, enhancing the compliance

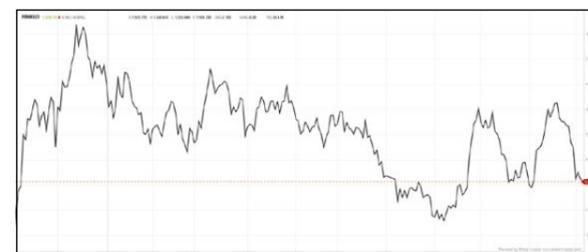

culture as well as marking an audit trail to the tax invoice. That is the strength on which we can actually build better compliance and therefore the revenue collected can be more secure as prediction will be with a little bit more accuracy. He also cleared the misconception that GST produces more revenue than SST. He said it is the preferred tax regime across the world because it is more robust as the multistage tax can help address issues with tax collection at the retail level, especially relating to compliance.

MIDF Research foresees normalisation of OPR next year

According to MIDF Research, it expects Bank Negara Malaysia (BNM) to consider normalising its benchmark interest rate in 2022, despite keeping the overnight policy rate (OPR) unchanged at 1.75 per cent throughout this year. At this point, the policy normalisation will likely be carried out in the latter half of 2022. We believe the current focus of BNM's monetary policy setting is to ensure a sustainable recovery of Malaysia's economy, coming out from the full lockdown. With the rate of inflation hovering within BNM's forecast, there is less pressure for BNM to quickly shift towards policy tightening. However the decision will be subject to the stability of economic growth, the pace of price increases and further improvement in macroeconomic conditions, particularly a continued recovery in the labour market and growing domestic demand. From a medium-term perspective, the policy rate normalisation is needed to avert risks that could destabilise the future economic outlook such as the persistently high inflation and a further rise in household indebtedness. At the Monetary Policy Meeting, the central bank decided to keep the OPR unchanged at 1.75 per cent, in line with MIDF's and market's expectations, as the current rate is deemed to be appropriate and supportive of Malaysia's economic growth.

Eye On The Markets

This week, on Friday (05Nov), the Ringgit opened at 4.1590 against the USD from 4.1475 on Monday (01Nov). Meanwhile, the Ringgit was 3.0739 to the Sing Dollar on Friday (05Nov). On Monday (01Nov), the FBM KLCI opened at 1545.99. As at Friday (05Nov) 10:00am, the FBM KLCI is down 18.34 points for the week at 1527.65. Over in US, the overnight Dow Jones Industrial Average closed down 33.35 points (-0.09%) to 36,124.23 whilst the NASDAQ added 128.70 points (+0.81%) to 15,940.30.

Back In The Groove

Markets

Looks like economies are regaining their momentum as the JP Morgan Global Manufacturing PMI for October bounced back with a reading of 54.3 from 54.1 in the preceding month. It would have been much stronger but output growth was impacted by substantial disruption to raw material deliveries, resulting in input shortages, rising cost inflation, and a near-stalling of international trade flows. The strength of the global manufacturing activities is also seen in the IHS Markit ASEAN Manufacturing PMI for Oct, which surged to an all-time high of 53.6, as economies in the region open and restrictive Covid-19 measures are lifted.

Meanwhile, the Federal Open Market Committee (FOMC) left the key US Fed Fund Rate unchanged, as expected, while comments by the Federal Reserve Chair, Jerome Powell, that it can be patient in raising rates, was music to investors' ears. The Fed also announced its tapering move of US\$15bil starting this month and to end by mid-2022. While the focus for the Fed is to see further recovery in the US labour market, it did warn that should the situation warrant a response, the Fed will not hesitate to raise rates. The market responded positively to Fed's comments as it seems to suggest that the US is not ready for a lift-off just yet.

Locally, last Friday, the Minister of Finance tabled Malaysia's largest budget ever with an allocation of RM332bil for 2022. With a GDP growth forecast of between 5.5% and 6.5%, the Malaysian economy is poised to improve next year and in terms of the size of the economy, it will finally surpass the pre-pandemic level achieved in 2019. A slew of measures was introduced in the budget, which among others include the 33% Prosperity Tax rate for companies with income above RM100mil, and for the local bourse, a higher round trip trading cost in the form of stamp duty with a rate of 0.15% of the contract value from 0.1% previously, while the cap of RM200 per transaction was also removed.

Economy

The Euro area preliminary 3Q GDP beat market expectations with a growth of 3.7%

y-o-y against the consensus estimate of a 3.5% expansion. However, the Euro area remained under pressure by rising inflation as October data showed Consumer Price Index (CPI) rose by 4.1% y-o-y.

Out of the US, the key data last Friday was the headline and core Personal Consumption Expenditure (PCE) for Sept with a slower than expected print of 4.4% and 3.6% against the consensus expectations of 4.7% and 3.7% respectively. Other news saw the University of Michigan's Consumer Sentiment Index for October was upwardly revised to 71.7 from the preliminary reading of 71.4. Meanwhile, the Institute of Supply Management (ISM) Manufacturing PMI came in at 60.8, slightly ahead of market expectations of 60.5, but slower than the preceding month's reading of 61.1, while the October ISM Non-Manufacturing PMI surged to a record 66.7 from the preceding month's print of 61.9 and market expectations of a pullback to 61.5.

Out of Europe, the Final Eurozone IHS Markit October Manufacturing PMI came in short of expectations at 58.3 and lower than the flash reading of 58.5 earlier, while the Final IHS Markit Eurozone Composite PMI was a tad lower at 54.2 against the flash reading of 54.3 earlier. From China, both the official manufacturing and non-manufacturing PMI for Oct fell short of market expectations with a reading of 49.2 and 52.4 against the consensus estimate of market expectations of 49.7 and 52.9 print and preceding month's reading of 49.6 and 53.2 respectively.

Locally, Bank Negara's September banking statistics data showed loans growth picked up some momentum with a growth rate of 2.9% y-o-y against the preceding month's pace of 2.5% as household loan growth slowed to 3.2% y-o-y but non-household loan growth improved to 2.6% y-o-y from 1.2% in August. Another interesting observation from the September banking statistics was the downtick in gross impaired loans, which fell to 1.57% from 1.67% in the preceding month. Meanwhile, the IHS Markit Malaysia Manufacturing PMI for October rose to 52.2 from the preceding month's print of 48.1 as the lifting of Covid-19 restrictions helped boost business activities. In other news and as expected, the final

Monetary Policy Committee meeting for the year saw the current Overnight Policy Rate left unchanged at 1.75%.

Corporate

Last Friday, Kuala Lumpur Kepong announced that it is subscribing 9.1mil new shares of Synthomer plc for £44.0mn or RM251.1mil under the company's proposed placement exercise. In other news, Hong Seng Consolidated said it will invest RM3bil in Kedah Rubber City for what would be the world's largest nitrile butadiene rubber plants next year. Meanwhile, Ta Win Holdings won a RM2.5bil contract from South Korea's POSCO to supply copper rods and wires and other related copper products over three years starting from Jan 1, 2022. Under the deal, the company will supply about 65,000 tonnes of the products starting with 10,000 tonnes in the first year. In other contract news, Ibraco secured a RM375mil contract of various construction components in Kuching, Sarawak, while Dialog Group won a RM248mil Engineering, Procurement, Construction, and Commissioning (EPCC) contract from Petronas.

Air Asia X has been classified as a PN17 company after its auditors issued a disclaimer of opinion on the company's June 30, 2021, financial statements, while Sarawak Concrete Industries Bhd (SCIB) has been given up to Monday to submit its annual report for the financial year ended June 30, 2021, failing which Bursa Malaysia will proceed to suspend the trading of the company's shares effective Tuesday, Nov 9, 2021.

Among glove stocks, it was Hartalega Holdings's turn to report its 2Q results as its topline and bottomline fell by 48.5% and 59.5% to RM2.01bil and RM914mil respectively as sales volume declined by 31% while lower average selling prices too dampened margins. In other related glove news, Top Glove Corporation clarified that its share buyback carried out between Sept 2020 and Feb 2021 are not investments, and hence are not subjected to any impairment.

Equity

World equity markets closed mostly mixed to firmer as investors welcome the strong 3Q results from selected large US corporates, surprises in some key economic data points, and the Fed's focus on its tapering move and not the timing of its expected interest rates lift-off. Markets that rose gained between 0.1% and 3.8% while markets that fell dropped between 0.1% and 1.3%. Locally, the market reacted negatively to the Budget 2022 that was tabled last Friday in particular the Prosperity Tax and higher stamp duty for share trading transactions carried out by investors. The KLCI closed the week 35.53 points lower at 1,531.33 points on sustained selling pressure among stocks that would be mostly hit by the one-off tax.

For the week ended Nov 3rd, retailers remained the largest net buyers for a second week in a row with an inflow of RM559.8mil as both the foreign and local institutions emerged

as net sellers with outflows of RM115.7mil and RM444.1mil respectively.

Eye on Week Ahead

Later today, all eyes will be on the US jobs data as the market is looking for a rebound in the number of hires to 425,000 for October while unemployment is expected to ease to 4.7% from 4.8% in September. On Sunday, November 7, China will be releasing the October trade data with both exports and imports expected to continue to show strong growth of 16.9% and 15.3% respectively. Following that, China will be releasing both the Producer Price Index and Inflation data for Oct on Wednesday, Nov 10. On the same day, the US too will be releasing their headline and core inflation data.

Locally, Bank Negara Malaysia (BNM) will be releasing Malaysia's International Reserves

position as at 29 October 2021 on November 8. A slew of economic data points are due the next day as the Department of Statistics will release the September Employment Market Report, Industrial Production Index (IPI), and Manufacturing Statistics. This will be followed by the September Wholesale and Retail Trade data on Wednesday, November 10, and the Monthly Rubber Statistics the next day, November 11.

Chief Executive Officer, Minority Shareholders Watch Group

Bursa's public reprimand of JAKS and Kenanga for breach of listing rules

On 25 October 2021, Bursa Malaysia Securities Bhd publicly reprimanded JAKS Resources Berhad and its principal adviser Kenanga Investment Bank Bhd (KIBB) for breaches of the Bursa Malaysia Securities Main Market Listing Requirements (MMLR). They were reprimanded for their failure to ensure that there were at least 10 market days' notice from the date of the books closing date (BCD) was announced to the actual BCD, for the adjustment to the exercise price and/or additional number of JAKS' Warrants 2018/2023 (JAKS-WB) arising from the proposed rights issue with warrants announced on 22 May 2020.

The finding of breach and imposition of the public reprimand on JAKS and KIBB were made pursuant to paragraph 16.19 of the MMLR upon completion of due process after taking into consideration all facts and circumstances of the matter including the materiality and impact of the breach. Bursa Malaysia Securities views the contravention seriously as paragraph 6.56(1)(b) of the MMLR serves to provide sufficient time for securities holders or investors to make a decision of the entitlements to the interests, new securities or other distributions or rights arising from adjustments made due to an issue of securities.

The chronology of events

On 22 May 2020, JAKS announced that it proposed to undertake a renounceable rights issue of new ordinary shares together with free detachable warrants and that the proposed rights issue with warrants may give rise to adjustments to the exercise price and/or additional number of JAKS-WB (Adjustments). On 13 October 2020, JAKS announced that the entitlement/BCD for the proposed rights issue with warrants was fixed on 27 October 2020 but did not announce the BCD for the Adjustments.

JAKS had only on 26 October 2020 announced that the BCD for the Adjustments was fixed on 27 October 2020 while admitting that the delay in the announcement was due to oversight. As the announcement of the BCD for the Adjustments was only made on 26 October 2020 after trading hours, there was short notice of less than one day to the BCD and the holders of JAKS-WB were essentially deprived of enough time to make a decision in respect of the Adjustments. Further, the price of JAKS-WB was not adjusted on 26 October 2020, i.e., the ex-date which had impacted the fair and orderly trading of JAKS-WB.

In this regard, Bursa Malaysia stressed that both JAKS and KIBB, as its appointed principal adviser, are duty-bound to ensure compliance of paragraph 6.56(1)(b) of the MMLR which

imposes a clear requirement that the period from the date the listed issuer announces the BCD for the issue of convertible securities arising from adjustments due to an issue of securities to the BCD must not be less than 10 market days. Ironically, KIBB which also acted as managing underwriter and joint underwriter of JAK's rights issue exercise previously hailed this exercise as Malaysia's largest underwritten rights issue for 2020. The rights issue entailed around 1.08 billion new shares in JAKS together with around 540 million free detachable warrants in JAKS which were listed on the Main Market of Bursa Malaysia on 26 November 2020.

An honest mistake?

Merely as a post-mortem without any intention of wanting to point a finger at either JAKS or KIBB, it has to be first and foremost established that the oversight should not have occurred at all given the lengthy time frame of almost five months between the announcement of JAKS' rights issue exercise on 22 May 2020 and 13 October 2020 when JAKS announced that the entitlement/BCD for the proposed rights issue with warrants was fixed on 27 October 2020. Although JAKS did not announce the BCD for the adjustments, there was still a two-week period in between the fixation of the rights issue/BCD date on 27 October 2020 which should be deemed as ample time to ascertain the JAKS-WB price adjustment.

In all fairness, the onus should fall on the shoulder of KIBB in its capacity as the principal adviser of the corporate exercise for failing to ensure an orderly execution of the entire rights issue exercise for its client (JAKS).

As the principal adviser, KIBB obviously was duty-bound to advise JAKS on the rules and regulations pertaining to the rights issue as well as to ensure full compliance. On hindsight, however, JAKS as the bearer of the corporate exercise, has also been implicated in the breach of the listing rules. Other public listed companies pursuing similar corporate exercises are reminded to ensure that there is no breach of listing rules in their undertaking of corporate exercises.

A physical AGM... at last

Last week, a PLC involved in the pilling and foundation businesses had its physical AGM. Given our preference for physical meetings, I jumped at the chance to attend it. The registration counters were opened at 8.30am. Shareholders and proxies were advised to register at 8.30 am or as early as possible as seats were limited to 50 seats on a first-come-first-serve basis. This would mean some shareholders would be turned away should

the attendance exceed 50 shareholders. There would be a corporate governance issue if attending shareholders were turned away due to lack of seating. Only about 15 to 20 shareholders attended the AGM and as such no one was turned away. PLCs would have some idea of past attendances at their physical AGM and this should serve as a guide when arranging seating capacity. PLCs are advised to err on the side of caution and have provisions for additional capacity.

I was at the meeting venue by 8.30 am and duly registered for the meeting. As per the notice of the AGM, on the spot COVID-19 tests were carried out on all attendees using a nasal swab courtesy of the Company. I waited for the AGM to begin at 10.00 am... and it did. There was no mingling of directors with shareholders and understandably so. To a question on the lack of any form of refreshments, the Chairman informed that there would be no refreshments as that would increase the risk of COVID-19 if people removed their masks for refreshments and this, again, was understandably so. All directors attended the AGM with two of them attended virtually. This is commendable as MSWG expects all directors to attend AGMs so that questions may also be addressed to them individually in their capacity as chairman or members of the board and the various board sub committees.

The Chairman also informed that there will be no slide presentation as he wanted to keep the meeting short though in the past years, they had had slide presentations. Nevertheless, I commented that it would be good if there is a presentation on the current challenges, prospects and outlook as the financial statements and annual report are historic and a few months old. Given that the slide presentation is within the control of the PLC, they can opt for a short presentation, if they so desire. The AGM is a once-in-a-year opportunity for shareholders to learn more about the PLC.

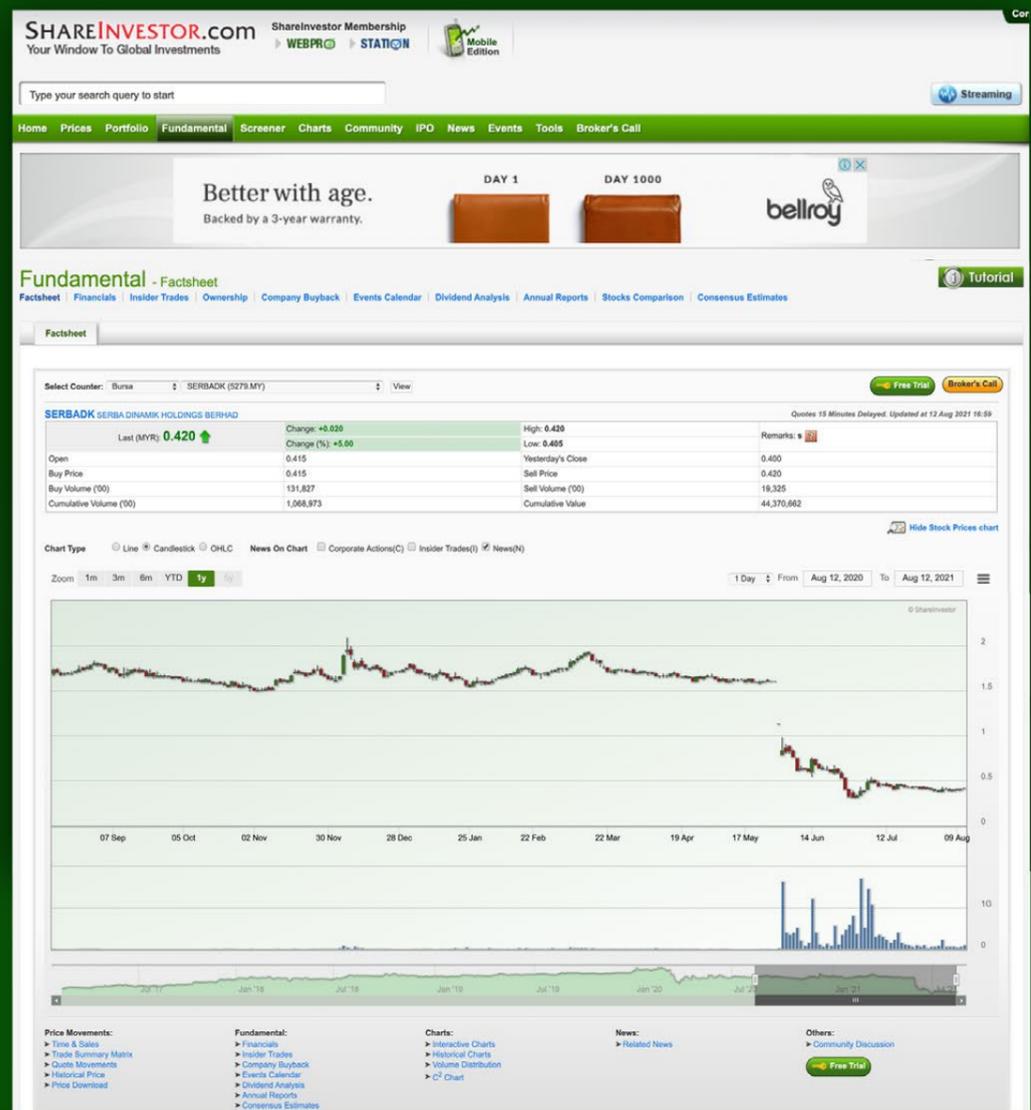

One independent director had served more than 12 years but there was no two-tier voting for his re-election as the Company opined that the said independent director has consistently performed to the best interest of the Group and that he continues to act with unfettered impartiality despite his relatively long tenure. Going forward, this may be a thing of the past as Bursa Malaysia is expected to amend the Listing Requirements to make two-tier voting mandatory for independent directors beyond nine years along with an absolute prohibition for tenures beyond 12 years.

Overall, it was a well-conducted physical AGM amid the COVID-19 pandemic

BANK ISLAM

BANK ISLAM'S VISIONARY BLUEPRINT TO SPEARHEAD ITS GROWTH

When Bank Islam Malaysia Berhad (BIMB or the Bank) took over the listing status of its financial holding company, BIMB Holdings Berhad (BHB), early last month, it emerged as the nation's first main-board listed pure-play full-fledged Islamic institution. The Bank is now embarking on its ambitious plans to build a foundation for growth and potentially spread its presence into the region as Islamic financing takes on a more prominent and preferred role.

The listing marked the completion of the BHB Group's restructuring exercise, which entails a private placement exercise, a scheme of arrangement to settle outstanding warrants, and the internal reorganisation of subsidiaries. The internal business realignment measures also included a distribution and capital repayment exercise involving distributing BHB's entire shareholdings in BIMB and Syarikat Takaful Malaysia Keluarga Berhad (Takaful Malaysia) to the shareholders of BHB, and lastly, the transfer of the listing status on the Main Market to BIMB.

Following the listing, every four shares held by existing BHB shareholders translated to equal shares in Bank Islam and one share of Takaful Malaysia. BIMB's market capitalisation is estimated at RM6.2 billion. At the opening price of RM3.01, on 8 October existing shareholders of BHB already saw a premium in terms of the valuation, with shares in BIMB and Takaful Malaysia.

Mohd Muazzam Mohamed
Group CEO BIMB

Menara Bank Islam at Jalan Perak, Kuala Lumpur

Despite the odds of a pandemic and the economic challenges it brought, a high potential domestic market, digitalisation and expansionary strategies position BIMB to decisively influence the future trajectory of the industry, the Bank has announced a five-year business strategy roadmap, referred to as LEAP25, to achieve this.

A large slice of growth in the domestic banking sector in 2020 came from Islamic financing. Fitch Ratings Singapore reported that the share of Islamic financing in Malaysia's banking system reached 37% by end-2020, driven by household financing and Islamic products from the "Islamic First" strategy. Islamic financing grew by 8.1% in 2020, while conventional banks posted a 1% growth.

Group CEO BIMB, Mohd Muazzam Mohamed tells Share Investor that over the past few years, the Bank had outperformed the industry.

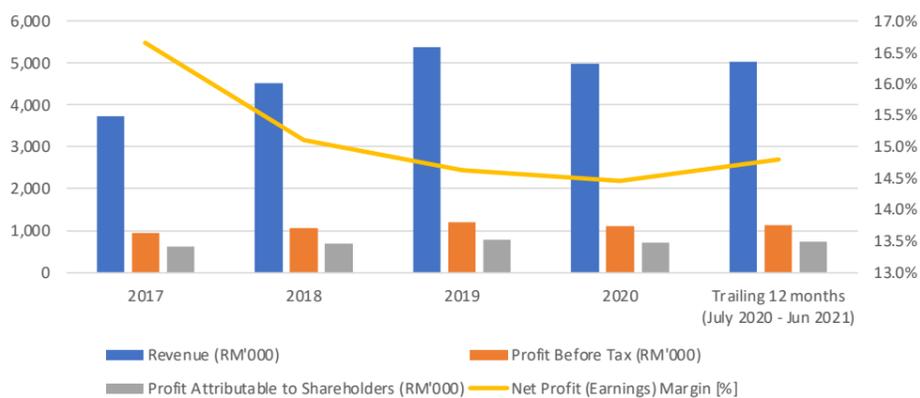

"If you look at our track record in the last few years, our financing growth has been almost double of the industry, growth was at 8% to 10% when the industry average was 3% to 6%. We expect 5% to 6% growth this year, when industry is looking at 3%," he elaborates.

Mohd Muazzam points out that the Bank's impaired financing ratio stood at 0.7%, below the industry average of 1.6% to 1.7%. Its Returns on Equity average 12% to 13%, against the industry's single digits.

RAM Ratings reported that Islamic financing contributed to more than 80% of total incremental loans in 2020. With the inclusion of financing from development financial institution, total exposure to Islamic financing exceeded Bank Negara's target of 40%. The agency foresees that this sector

Rank	Name	No. of Shares	%
1	Lembaga Tabung Haji	997,113,900	48.03
2	Employees Provident Fund	272,293,101	13.12
3	Bumiputra Investment Foundation	176,070,302	8.48

“Bank Islam’s wholly-owned subsidiary, BIMB Investment Management Berhad, has been focusing on sustainable investing and delivering products, which are purely based on Shariah-ESG matrix and likely to increase assets under management by fivefold.”

will drive the overall banking system’s credit expansion in 2021, anticipating financing to widen by 7%, compared to 2% by conventional banks. Growth is underpinned by household financing.

According to Maybank IB Research, the Bank’s gross impaired loans ratio (GIL) recorded 0.72% (end-June 2021), starkly better than the Islamic financing industry average which RAM Ratings expects to rise to about 2% by end-2021 while that of the conventional banks’ will be around 2.5%.

BIMB has been sustaining a net income margin slightly above the industry average of 2% with total capital close to 19%, while the industry averages 18% for first-half 2021.

Having achieved a strong foothold in the mass market, the Bank intends to fortify its position in the High Net Worth (HNW) and Ultra High Net Worth (UHNW) segment. Plans are underway to broaden its breadth of products for private banking customers and

Bank Islam has 141 branches and more than 900 self-service terminals nationwide, providing banking and financial solutions that strictly adhere to Shariah rules and principles.

expand its distribution network for integrated wealth management.

Dividends and reinvestment policy

BIMB has been paying out regular dividends every year, with yields hovering in the 3% range. In the past, BHB’s dividend yield recorded 3.6% in 2019 and 3.0% in 2020, while dividend per share was 16 sen and 12.6 sen respectively.

The financial institution recorded earnings per share (EPS) of 44.75 sen in 2019 prior to the pandemic, while EPS declined by 10.1% to 40.21 sen in 2020. Trailing 12-month EPS ending June 2021 recorded a similar result at 40.0 sen. (See chart)

According to Mohd Muazzam, BHB practices a dividend reinvestment programme, offering investors shares rather than cash. The take up rate for this programme in the past averaged 85% to 90%.

“At the end of the day, you can look at BHB in the past and know for a fact that majority of it comes from Bank Islam anyway, so whatever good matrix it is you see in BHB that is a proxy of whatever the Bank contributed in the past and it is likely to continue,” he explains, adding that 50% of earning is paid out as dividend.

Green is the new black

With climate change projected to impede profits in the banking industry, BIMB’s Islamic principles has kept it on the opposite end of the conundrum as sustainability and ESG has always been within its DNA.

“BIMB has the highest percentage of green financing among all banks, and that was

already acknowledged in 2020. In the next five years, we aspire to double that,” says the Group CEO who assumed his position on 5 December 2018.

“When we say Green and ESG, [it’s] not aspirational, because internally some banks give transitional period for instance to become free of coal financing, but we already have zero exposure as of today.”

He adds that Bank Islam’s wholly-owned subsidiary, BIMB Investment Management Berhad (BIMB Investment), has been focusing on sustainable investing and delivering products which are purely based on Shariah-ESG matrix and likely to increase assets under management by fivefold.”

Another growth area with rising potential is the halal industry. BIMB collaborated with Halal Development Corporation (HDC) earlier this year, to provide a new financing facility, Go Halal SME Financing Program with an initial allocation of RM100 million, targeted at local SMEs to embark or expand into the halal industry. Mohd Muazzam believes Bank Islam’s positioning as the default bank in the halal industry is pivotal in gaining a competitive advantage in a market that is synonymous to its principals.

“When you talk about halal products or halal certification, [the financials] of the company producing all these halal goods, must also be in accordance with halal principles, therefore we should be there,” he stressed.

BIMB’s collaboration with HDC also involves a synergistic integration between the Bank’s mobile app platform, SMExpert aimed at developing the SME ecosystem, and HDC’s Halal Integrated Platform (HIP), a comprehensive Halal Ecosystem Platform.

Malaysia’s halal sector has the potential to take local businesses overseas. Due to the pandemic, halal exports fell 24.4% to RM31

billion (RM41 billion in 2019). Prior to that, the halal industry made up approximately 15% of Malaysia's gross domestic product.

HDC projects RM32 billion to RM33 billion revenue from halal exports this year. The State of the Global Economic Report 2020/2021 projects the global halal industry market size to be worth US\$5 trillion (RM20.78 trillion) in 2030 from its current market worth of US\$3.1 trillion (RM12.8 trillion).

Banking on the Unbanked

Mohd Muazzam is excited about the potential that awaits as the Bank rolls out its financial inclusion programme which utilises innovative Islamic instruments such as Zakat, Waqf and Sadaqah as alternative funding means targeted at micro-entrepreneurs.

Micro-entrepreneurs are small business owners such as wet market vendors. Some micro-entrepreneurs do not qualify for financing facilities, hence falling under the term "unbanked". BIMB aims to nurture those in the unbanked group to become bankable – fits in the eligibility required for banking facilities – in the future. Currently, the Bank has launched two micro-financing programmes to mobilise its mission – iTEKAD and BangKIT, offering micro-financing facilities coupled with business coaching, training and mentoring to small business owners.

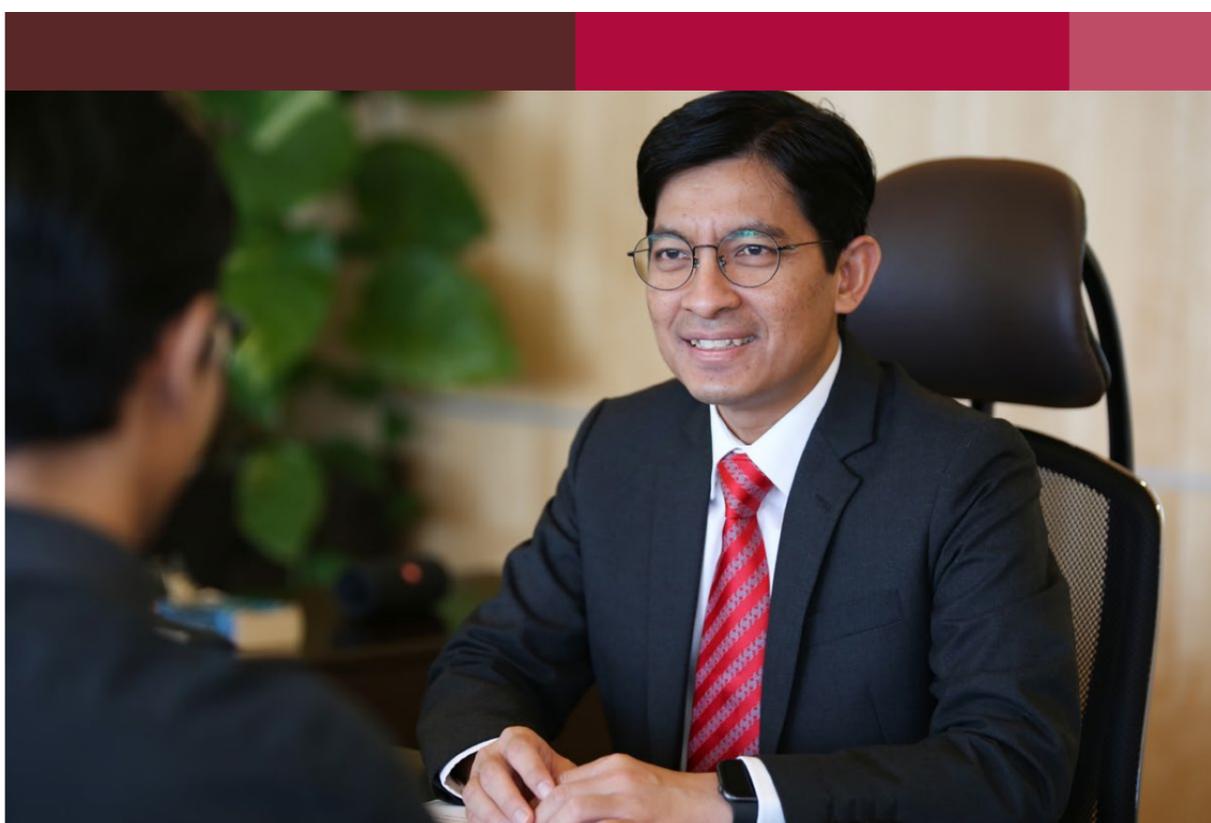

"This is in cooperation with the state religious councils as it taps into their zakat funds. We also utilise funds from various channels, including our social crowdfunding platform, Sadaqa House, to finance the working capital of these entrepreneurs," he elaborates.

The question is how does all this benefit BIMB? According to Mohd Muazzam, these measures translate to upward mobility for the micro-entrepreneur business.

"When they repay us there'll be credit track record, so when they need to expand their business, with that track record they can apply for an SME financing," he points out.

The unbanked segment is an exciting growth potential in Malaysia as more than 70% of the over 1 million SMEs in Malaysia comprise micro-entrepreneurs. Fitch Ratings Dubai has estimated the proportion of the unbanked population in the 57 Organisation of Islamic Cooperation (OIC) countries to be around 60% at end-2018.

BIMB staff stands ready to provide solutions and deliver value to their customers

DIGITALISATION TO POWER BIMB'S GROWTH INTO THE FUTURE

"Digitalisation is a game changer. Footprint is no longer determined by physical branch network – it can be virtual networks."

Bank Islam has invested approximately RM300 million over the past three years in digitalisation enabling infrastructure to facilitate its eventual foray into the digital banking sector. According to Mohd Muazzam, the Bank will embark on the second phase of its technology innovation, entailing another RM300 million investment to further enhance its digital banking offerings.

"We are investing a lot productively in digitalisation which will help uplift our revenue going into the future," he said.

He discloses that the digital bank is likely to go live by next year, upon successful completion of extended testing of its prototype.

"We are doing the extended testing now using live environment as it needs to be rolled out together with electronic Know Your Customer (eKYC) feature," he explains.

What will Digital Banking do? Essentially, the application of digital technology in banking operations will hasten decision-making, automate banking processes and contribute to faster processing of customers' applications. Banking channels will be digitalised and with the use of big data in decision-making, risk vs returns for lending and financing portfolio will be enhanced.

BIMB's current exposure beyond Malaysia comprises of its subsidiary, BIMB Securities Sdn Bhd's Global trading capability into the NYSE, HKEX and SGX markets and BIMB Investment's Asset Management Services in Singapore with plans to venture into Indonesia and

Thailand.

Mohd Muazzam explains that while BIMB has had its eye on the international market, a rule of thumb in the industry is that to succeed in retail banking, size matters.

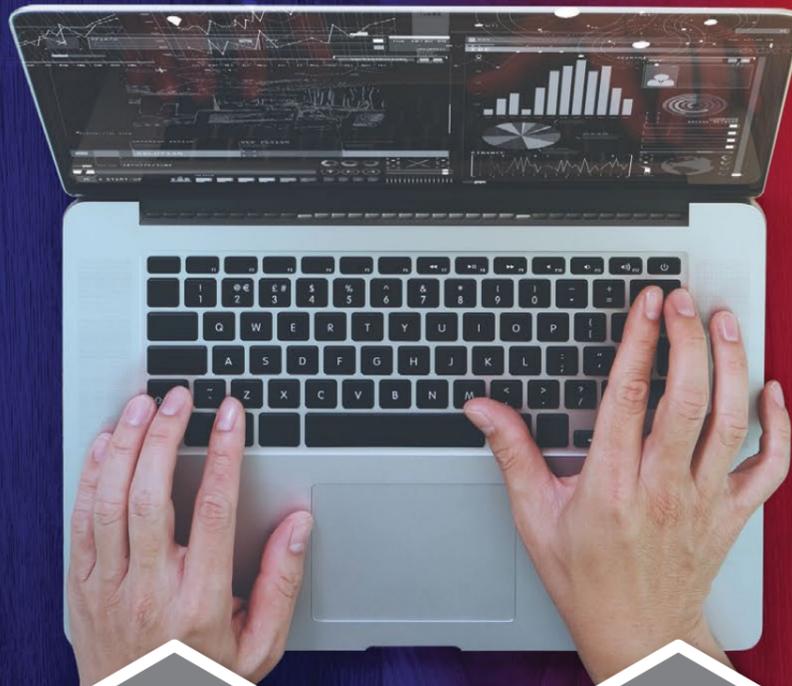

Drawing parallels with foreign banks that have exited the domestic market in recent times, Mohd Muazzam emphasises that without a large network and big footprints from Day One of operations, the likelihood of failure is high.

"But now with digitalisation, it's a game changer, footprint is no longer determined by physical branch network – it can be virtual network."

"As we refine our digital banking proposition through extended testing and iterations, we hope to launch by early 2022. This will then present an opportunity for us to go into another market and offer retail products, as a digital-only proposition," he points out, adding that specific markets and timelines have not been firmed up yet.

If BIMB pulls this off, huge potential awaits regionally and globally. In emerging Islamic finance markets, awareness, confidence and demand are high, according to Fitch Ratings Dubai. The rating house reports a rising need for Islamic banking in countries like Pakistan, Jordan and Bangladesh, with potential to raise awareness and thus demand in secondary emerging Islamic finance markets like Indonesia, Turkey, Egypt, Algeria and Tunisia. Indonesia reportedly has a Shariah financial literacy rate of only 8.9% in 2019.

AirAsia X Berhad

The Board of Directors of AirAsia X Berhad (**AAX**) hereby announces that AirAsia X Berhad has triggered the prescribed criteria pursuant to Paragraph 8.04 and Paragraph 2.1(d) of Practice Note 17 ("PN17") of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. Hence, the Company is considered as a PN17 issuer. The PN17 prescribed criteria is triggered as AirAsia X Berhad's external auditors, have expressed a disclaimer of opinion in the Company's audited financial statements for the 18-month financial period ended 30 June 2021 announced on 29 October 2021.

CapitaLand Malaysia Trust

CapitaLand Malaysia REIT Management Sdn. Bhd. (formerly known as CapitaLand Malaysia Mall REIT Management Sdn. Bhd.), as manager of CapitaLand Malaysia Trust (**CLMT**) (formerly known as CapitaLand Malaysia Mall Trust), wishes to announce the appointment of Mr Tan Choon Siang as the Chief Executive Officer, Designate with effect from 1 November 2021. The appointment of Mr Tan as the CEO Designate is part of the leadership succession plan approved by the Board of Directors of CapitaLand Malaysia REIT Management Sdn Bhd and subject to the approval of the relevant authorities.

Malayan Banking Berhad

On behalf of the Board of Directors of Malayan Banking Berhad (**MAYBANK**), Maybank Investment Bank Berhad is pleased to announce that Malayan Banking Berhad has, on 29 October 2021, fully redeemed all outstanding USD Subordinated Notes and accordingly, the USD Subordinated Notes will be delisted from the Singapore Exchange Securities Trading Limited. The USD Subordinated Notes was issued on 29 April 2016.

IDimension Consolidated Berhad

The Board of Directors of IDimension Consolidated Bhd (**IDMENSN**) wishes to inform that the application in relation to the Proposed Regularisation Plan had been approved by the Bursa Malaysia Securities Berhad on and currently the Company is awaiting for the decision from the Equity Compliance Unit of the Securities Commission Malaysia.

Malaysia Airport Holdings Berhad

The Board of Directors of Malaysia Airport Holdings Berhad (**AIRPORT**) wishes to announce that Segi Astana Sdn Bhd and Malaysia Airport Holdings Berhad have on 1 November 2021 entered into a mutually agreed amicable payment agreement for the amounts awarded under the Arbitrator's Final Award to be settled by Segi Astana Sdn Bhd progressively over a period of nine (9) months. Pursuant to the terms of the agreement, all pending legal proceedings arising from the arbitration will be discontinued and withdrawn with no order as to costs.

KEJURUTERAAB ASASTERA BERHAD

Kejuruteraan Asastera Berhad

The Board of Directors of Kejuruteraan Asastera Berhad (**KAB**) wishes to clarify that the Purchase Consideration for the Proposed Acquisition was also after taking into consideration the professional fee incurred by the vendor, YL Global Ventures Sdn Bhd for the research and reviewing the feasibility of the robotic products before procuring its exclusivity right as the sole distributor in Malaysia.

Pentamaster Corporation Berhad

The Board of Directors of Pentamaster Corporation Berhad (**PENTA**) is pleased to announce that Pentamaster Equipment Manufacturing Sdn Bhd, a wholly-owned subsidiary of Pentamaster International Limited, which in turn is a subsidiary of Pentamaster Corporation Berhad in which Pentamaster Corporation Berhad holds 63.46% equity interest, has on 3 November 2021 entered into a sale and purchase agreement with the Penang Development Corporation for the proposed acquisition of a piece of leasehold land for a total cash consideration of Ringgit Malaysia Twenty Eight Million Two Hundred Seventy Nine Thousand Three Hundred and Four and Sen Thirty Five (RM28,279,304.35).
