# Bursa Malaysia Derivatives completes first physical delivery of East Malaysia Crude Palm Oil Futures in Sabah

ccording to Bursa Malaysia executive **Derivatives** chief officer Samuel Ho Hock Guan, Bursa Malaysia Derivatives Bhd has completed the first physical delivery of its East Malaysia Crude Palm Oil Futures Contract (Fepo) in Sabah on February 17, 2022. The delivery saw a total of eight contracts, representing 200 tonnes of crude palm oil (CPO) transacted between the seller, Green Edible Oil Sdn Bhd, and the buyer, Kunak Refinery Sdn Bhd at one of the approved Port Tank Installations in East Malaysia, namely in Sandakan, Sabah. The Port Tank Installation is operated by Sawit Bulkers Sdn Bhd, a wholly-owned subsidiary of Sawit Kinabalu Group, which is the premier investment arm of the Sabah state government in the oil palm industry. The successful and orderly completion of the first physical delivery for Fepo contracts demonstrates the demand from Sabah producers to sell their CPO through an alternative platform with greater price transparency. The Fepo contract benefits Sabah refiners and buyers by allowing them to source CPO at competitive pricing. It also enables them to manage price risk and hedge against unfavourable price movement in the physical market, especially during the low-supply season. Meanwhile, Sawit Kinabalu group managing director Datuk Bacho Jansie said the availability of Bursa Malaysia Derivatives' Fepo contract provides East Malaysia market participants with an additional trading opportunity as well as an improved price discovery mechanism and more physical delivery options in Sabah and Sarawak. He added that as one of the designated delivery ports in Sabah, he hopes to attract more market participants to lease out their available tanks and further increase the visibility of the East Malaysia palm oil market. The Fepo contract, which went live on October 4, 2021, provides East Malaysia CPO market participants with a new avenue to engage in physical deliveries and hedge their positions in the physical CPO market. It also strengthens Bursa Malaysia

Derivatives' Palm Complex offerings and

provides price transparency in the East Malaysia CPO market, further cementing Malaysia's position as the global centre for palm oil price discovery. From its launch date to February 8, 2022, Bursa Malaysia Derivatives recorded a total trading volume of 3,250 contracts which is equivalent to 81,250 tonnes of CPO. Its highest daily trading volume was recorded on January 5, 2022, at 122 contracts representing 3,050 tonnes of CPO.

#### Growth momentum expected to be hampered - Moody's

According to Moody's Investors Service in the latest update to its Global Macro Outlook for 2022-23 report, declining fiscal support, tighter monetary policy and waning pent-up demand will weigh on growth momentum in most countries. Although it expects the rapid rise in inflation in recent months to subside, the steep and broad-based increase in prices is eroding household purchasing power and could weaken the recovery. The global economy is transitioning from a tentative recovery toward more stable growth, bolstered by improvement in the Covid-19 health situation. The current economic cycle is remarkable in the swiftness with which activity has been restored in most major economies. The Group of 20 (G20) economies is expected to collectively expand 4.3 per cent in 2022, down from 5.9 per cent in 2021 yet still above long-term trend growth. Global growth will further slow to 3.2 per cent in 2023 as pandemic-fuelled output losses have been largely recouped and labour markets in advanced economies approach a full recovery. The agency also predicted a challenging first half of 2022, with elevated commodity prices, demand-supply imbalances, inflation pressures, volatile financial markets and geopolitical tensions. However, demandsupply distortions is expected to resolve over 2022, with supply bottlenecks easing in the second half of the year.

#### AmInvest launches Asia ex Japan **Equity Fund**

According to AmBank group CEO Datuk Sulaiman Mohd Tahir, AmInvest has launched its Asia ex Japan Equity Fund, which offers investors potential longterm capital growth by investing in a diversified portfolio of stocks in the Asia region (excluding Japan). The fund will feed into the Baillie Gifford Worldwide Asia ex Japan Fund, which aims to provide above average returns over the long term by investing in the fastest growing stocks in the Asia region excluding Japan. The target fund invests in companies that are financially sustainable in the long run, and takes into consideration factors such as high quality growth businesses that enjoy competitive advantages in their marketplace, environmental, social and governance matters. According to AmInvest chief executive Goh Wee Peng, the fund is a beneficiary of structural drivers that will continue to support strong growth prospects in China and the broader Asia Pacific region. This is the second fund partnership with Baillie Gifford, the target fund's investment manager, who also manages the target fund for the Sustainable Series - Positive Change Fund. Baillie Gifford have over 30 years of experience managing Asian region equities. Since its inception in February 2020 until to date, the target fund has returned 36.2% and beaten its benchmark by 23.4%. There should be material growth for the fund, as there are more than 3 billion consumers across Asia with a notably large consumer market within the rising Asian middle class. Pre-pandemic data from International Monetary Fund predicts that the per capital spending power of Chinese consumers will nearly double in US dollar terms over a five-year period from 2019 to 2024. Digital penetration and technological change continue to be the key themes for long-term growth opportunities in Asia. Rapid development of technology is creating a fundamental change in market behaviours, with digitalisation

driving changes in economic and political systems, businesses, consumer habits and behaviours. The target fund actively seeks companies that may have underappreciated growth and those constantly reinvesting for the long-term, either in research or development of capital projects. The fund's base currency is US dollar. It is being offered for subscription to sophisticated investors in US dollar, ringgit and in ringgit-hedged classes at the initial offer prices of US\$1 and RM1 per unit respectively during the initial offer period until March 23, 2022. AmInvest is the brand name for the fund management business of AmFunds Management Bhd and AmIslamic Funds Management Sdn Bhd.

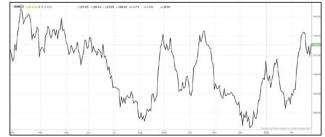

# Local institutions placed emphasis on importance of ESG-compliant investments — Bursa

According to Bursa Malaysia, local institutions placed emphasis on the importance of environmental, social and corporate governance (ESG)-compliant investments. Malaysia's key institutional investment managers and asset owners — such as the Employers Provident Fund (EPF), Khazanah Nasional Bhd and Retirement Fund (Incorporated) (KWAP) — had participated in and signed the United Nations Principles for Responsible Investment in 2019. These institutions have incorporated the ESG mandate into their funds. The EPF is also expected to announce a sector sustainability policy framework as guidance for its future investments that will comply with ESG practices. Citing IHS Markit's filings up to Feb 7, 2022, the regulator said the local ESG-mandated funds had a total holding value of US\$118 billion (about RM494.01 billion) in stocks with good ESG ratings. The filings also showed that the fund houses ranked the highest in terms of the total holding value of stocks with good ESG ratings and accounted for 92% of

the total holding value of the stocks. With the change in investment fundamentals within the industry, large-scale investment banks are also pivoting their strategies in tandem with the rise of sustainability consciousness. For instance, in December last year, Maybank Investment Banking Group announced that it would prioritise ESG and help its clients to identify green opportunities. ESG investing is one of the fastest-growing trends in the investment community over the past few years. ESG is slowly becoming a key consideration for investors. Asset owners such as pension funds are increasingly demanding sustainable investing strategies from their asset managers. Bursa, in quoting IHS Markit's fillings up to Feb 7, said there were 235 ESG-mandated funds globally that had invested in Bursa as an exchange with a total holding value of US\$143.5 billion (about RM600.76 billion). 44% of the funds (excluding Malaysia) were from North America, followed by Europe at 27%, Asia at 26% and the Middle East at 3%.

# "Putin In, Investors Out"

#### Markets

The geopolitical risk went up a few notches this week as Russian President, Vladimir Putin, signed decrees recognizing self-proclaimed Donetsk and Luhansk republics in eastern Ukraine, which is seen to be against the interest of the West, in particular, the US and the EU. The Russian President's order to have military forces into the two separatist regions too raised eyebrows as the world grapples with Russian real intention on Ukraine, a country that is rich in natural resources, in particular, oil, coal, natural gas, and iron ore as well as agricultural commodities like corn and wheat, sending prices higher across the board. The benchmark 3rd-month Crude Palm Oil Futures contract closed at a new record high of RM6,458 per tonne while the near month March'22 contract surpassed the RM7,000 per tonne mark to close at RM7,093 per tonne yesterday. Brent Crude Oil was last seen at US\$104.75 per barrel.

The US and the EU responded to Russia's aggression by imposing some soft sanctions against Kremlin. As the US State Secretary opined that Russia is ready to invade Ukraine, markets turned nervous with selling pressure intensified globally on rising geopolitical risk. At the time of writing, Putin had ordered broad military operations towards Ukraine targeting military facilities, including airfields and anti-aircraft systems. The US and the Western allies are likely to retaliate with stricter sanctions towards Moscow or an outright military intervention.

While markets were keeping tabs on the development in Ukraine, another spanner for the market was China's move of targeting technology companies with further regulatory controls, which caused further selling pressure among Chinesebased tech companies.

#### **Economy**

US housing market showed a mixed picture in January as Building Permits improved by 0.7% m-o-m to an annualized rate of 1.899mil units and better than market expectations of 1.76mil but Housing Starts fell by 4.1% m-o-m to an annualized rate of just 1.638mil units against 1.708mil in the preceding month and the 1.7mil forecasted. However, the Existing Home Sales improved 6.7% m-o-m to an annualized rate of 6.5mil units against the consensus expectations of a 6.1mil print. In other news, the Conference Board Consumer Confidence Index for February fell to 110.5 from the preceding month's reading of 111.1.

Out of Europe, the IHS Markit Flash Eurozone Composite Index rose to 55.8 in February from the preceding month's print of 52.3. Meanwhile, the People's Bank of China left the benchmark 1-year Loan Prime Rate unchanged at 3.7%, while the Bank of Korea too left its 7-day repurchase rate unchanged at 1.25%. However, the Reserve Bank of New Zealand stepped-up its move to contain inflationary pressure with another 25bps hike to 1.00%, the third hike in as many meetings.

Down south, Singapore's 2022 Budget revealed a few surprises. Although the much-anticipated hike in GST to 9% was announced, Singapore has decided to stagger the increase over two years, with an 8% GST rate effective Jan 1, 2023, and a 9% GST rate effective Jan 1, 2024. Singapore also raised taxes for property and luxury cars, a higher tax rate for top income earners, and a substantial increase in carbon tax. In other news, Singapore's January headline and core inflation prints increased by 4% and 2.4% respectively. Although the pace of increase was unchanged for the headline data on a m-o-m basis, the core inflation was higher than the preceding month's reading of a 2.1% y-o-y increase.

Up north, Thailand's 4Q GDP came in marginally ahead of expectations with a y-o-y expansion of 1.9%. This brought the kingdom's 2021 GDP growth rate to 1.6% against the preceding year's contraction of 6.2%.

Locally, Malaysia's exports for January surged 23.5% y-o-y to RM110.7bil while imports rose by 26.4% to RM92.3bil, giving the country a trade surplus of RM18.4bil, an increase of 10.9% y-o-y. In other news, the January Total Industry Volume for the automotive sector rose 21.5% y-o-y to 40,581 units but the monthly sales figure was lower by 37.7% m-o-m, mainly due to supply chain issues and the bumper December month due to promotional activities carried out by distributors. Meanwhile, Malaysia's international reserves as at February 15, 2022, stood at US\$115.8bil or RM482.23bil against US\$116.1bil or RM483.68bil as at end of January 2022.

Lastly, January inflation data released yesterday showed inflationary pressure has eased with an increase of just 2.3% y-o-y against the 3.2% print in Dec'2021. Despite the good news, core inflation remains on an upward trajectory, rising to a 1.6% y-o-y pace against the preceding month's increase of 1.1% y-o-y.

#### Corporate

AirAsia X, which has recently undergone a share consolidation exercise has now called a smaller proposed rights issue on the basis of 1-for-1 at an indicative issue price of 28 sen per share, enabling the company to raise some RM116mil in fresh capital. In addition, a share subscription by a Special Purpose Vehicle (SPV) to raise another RM50mil will also be carried out. Meanwhile, E&O has proposed a rights issue of Irredeemable Convertible Unsecured Loan Stocks (ICULS) on the basis of 1 ICULS for 2 shares held to raise up to RM362.8mil. The ICULS carries a coupon rate of 3.8% per annum and will be convertible anytime over 5 years on the basis of 1-for-1 at a conversion price of RM0.50 per share.

Three huge contracts were won by listed companies this week. First was Wah Seong, which won a US\$254.1mil (RM1.06bil) midstream contract for the provision of line pipe thermal insulation services by East African Crude Oil Pipeline (EACOP) Ltd in Tanzania. The second job award was to Gamuda. The company, via an unincorporated joint-venture company with Wai Fong Construction Pte. Ltd, in which Gamuda will have a 60% stake, won a S\$467mil (RM1.45bil) contract for the design and construction of the proposed Defu station and tunnels. Last but not least was Kerjaya Prospek as the company bagged a RM710.1mil contract for the construction of the main building and external works for a proposed residential development project in Ampang. To be completed in 53 months from its commencement date in June 2022, the project comprises 5,255 small office home office units, apartments, and retail spaces.

Meanwhile, CTOS Digital completed a primary placement of 110mil new shares at an issue price of RM1.58, which enabled the company to raise some RM173.8mil. At the same time, its major shareholder, Inodes Ltd, placed out 185mil existing CTOS shares at the same placement price of RM1.58 per share, raising RM292.3mil. Inodes, which is owned by private equity firm, Creador, will see its direct interest in CTOS drop to 30.1% from 40% previously.

In quarterly results, two Malaysian largest corporates by market capitalization announced a sterling set of results with both Petronas Chemical and Maybank reporting net profits of RM2.06bil each for the 4Q period.

#### **Equity**

Global markets experienced a major sell-off as more indices fell into the 10% correction territory on rising geopolitical risk. Index losses of between 0.3% on Jakarta's Composite Index to as much as 7.7% on the Nasdaq 100 Index were recorded this week. The benchmark MOEX Russian Index was off by 23.6% at the time of writing after falling as much as 45.4% at one stage. On the local bourse, despite strong gains among commodity-based companies on the back of record-high CPO prices, the KLCI still closed 31.13 pts or 1.9% lower at 1,573.89 pts.

For the week ended February 23, foreigners net buying momentum eased but remained sizable with an inflow of RM641.5mil. Retail market participants too were net buyers with an inflow of RM305.5mil, leaving the local institutions as sole net sellers in the market with an outflow of RM947mil. With just three market day's statistics to go for the monthly data, foreign net buying interest has already surpassed the RM2bil mark and is on course to register the highest monthly inflow in four years.

#### Eye on Week Ahead

Other than economic data points over the next one week, investors' attention will likely be focused on the escalating tension in Ukraine as it is likely not only the US and its allies will impose stricter sanctions on Moscow but the likelihood of these allied forces coming together to defend Ukraine cannot be ruled out as well.

Later today, the US will release the muchawaited January headline and core Personal Consumption Expenditure (PCE) data which the market expects to hit 5.5% and 5.1% respectively. In addition, the January Durable Goods Order is due as well while the Final University of Michigan Consumer Sentiment Index is expected to show a final reading of 61.7.

On Tuesday, March 1, a host of February IHS Markit PMI indicators are due and this includes the JP Morgan Global, Eurozone, ASEAN, and the Malaysian Manufacturing PMI prints. On top of it, China's official manufacturing and nonmanufacturing PMI for February and the Institute of Supply Management (ISM) US Manufacturing PMI too are expected to be released, with the latter expected to show a reading of 58.0 against 57.6 in January. Meanwhile, the Reserve Bank Of Australia meets on the same day too as investors will be keen to see if the RBA is ready to hike rates just yet.

The Fed's Beige Book is expected to be released on Wednesday, March 2. The next day, Final February Eurozone Composite PMI and the JP Morgan Global Composite PMI are expected to be released.

Locally, Bank Negara will be releasing the monthly statistical bulletin as well as the key banking statistics for January on Monday, February 28. On the same day, the Department of Statistics will be releasing the January Producer Price Index-Local Production. But the key event is the Monetary Policy Committee meeting to be held on March 2-3, followed by the Monetary Policy Statement thereafter. Bank Negara is widely expected to keep the Overnight Policy Rate (OPR) unchanged for now.

# BCM Alliance's ESOS draws attention

In a nutshell, an employee share option scheme (ESOS) is an incentive scheme whereby employees are offered an option to purchase shares of their companies at a certain price either over a specified period of time or upon specified milestones. ESOS is a means of compensating employees – a platform to motivate, retain and remunerate talents – by allowing them to participate in the growth of the company's equity. The ESOS mooted by BCM Alliance Berhad has raised public interest. While ESOS is typically offered to all employees, only two employees ended up taking the offered ESOS. It is puzzling why the other staff did not take up the ESOS, if they were offered, as the ESOS was at a significant discount to the market price. The exercise price of options offered was 2.91 sen while the closing market price of the Company's shares on the date of offer was 3.5 sen. Subsequently, the two employees emerged as the major shareholders of the company. Overnight, new major shareholders had emerged.

#### What happened?

According to BCM Alliance's filings with Bursa Malaysia dated 20 January 2022, two employees namely Kiu Cu Seng and Cheng Li Ping, exercised a total of 469.41 million shares (the total ESOS shares that was offered under the scheme) at 2.91 sen apiece. Kiu exercised some 305.12 million shares or equivalent to a 15% stake, making him the largest shareholder of BCM Alliance, followed by Cheng who exercised 164.29 million shares for an 8.08% stake. This has effectively made the duo the largest shareholders of BCM Alliance with a combined 23% stake after exercising their ESOS. A check on the website

Boardroom Alpha shows that Kiu, 33, has since March 2021 served as group accountant for BCM Alliance, Sanichi Technology Bhd and Trive Property Group Bhd. His responsibility is said to centre on group consolidation matters. Additionally, his name also appeared as the chief financial officer of Nasdaq-listed shell company Energem Corp. Energem which was listed on 16 November 2021 with an initial public offering price of US\$10 per unit for 10 million units. There is hardly any information available with regards to Cheng.

For its third quarter ended 30 September 2021, BCM Alliance returned to the black with a net profit of RM1.51 million against a net loss of RM5.33 million in the preceding quarter. Year-on-year, its net profit jumped 21.77% from RM1.24 million in the previous year's corresponding quarter. Quarterly revenue, however, fell 17% to RM16.97 million from RM20.39 million a year earlier. For the cumulative nine months ended 30 September 2021, BCM Alliance had incurred a net loss of RM3.79 million compared to a net profit of RM2.32 million in the previous corresponding period while revenue fell 5% to RM49.71 million from RM52.5 million. Over the last 14 months, BCM Alliance had issued 1.08 billion new shares via rights issues and private placement to raise funds. Presently, it has a total share base of about two billion shares, up three-fold from 625.88 million shares as of 31 March 2021. At the same time, the share price of BCM Alliance has been on a downward spiral from a 52-week high of 32.5 sen to the current price of 3.5 sen as of 17 February.

#### **Further probing**

To re-cap, in February 2021, BCM Alliance proposed to terminate a five-year ESOS scheme which was established on 25 August 2020. The previous ESOS constituted the issuance of up to 15% of the Company's issued share capital to eligible directors and employees. Shortly after, BCM Alliance came out with a new fiveyear ESOS proposal involving up to 30% of the total number of its issued shares for eligible directors and employees of the company and its subsidiaries. BCM Alliance said the ESOS exercise is also intended to retain the eligible individuals by giving them a sense of ownership, loyalty and belonging to the group by enabling them to participate via equity ownership in the company.

It further noted that any proceeds from its ESOS will be utilised for the company's working capital purposes. The exercise price of ESOS offered to employees was 2.91 sen per share, representing

approximate a 17% discount to BCM Alliance's closing price of 3.5 sen on 12 January when the offer was made. Given the ESOS was offered at a discount to share price, it is strange to find that none

of the other employees took up the offered shares.

Indeed Kiu and Cheng must be wealthy for they were able to fork out RM13.66 million (a massive amount for the man on the street) to exercise the 469.41 million ESOS shares. Shareholders should seek explanation on the puzzling offer of ESOS at BCM Alliance's forthcoming general meeting.

# Heineken posts stronger earnings in FY2021 as Q4 HEINEKEN profits recover

eineken Malaysia Bhd could be ascending the path of recovery as net profit for the financial year ended 31 December 2021(FY21) was up 59% to register RM246 million, buoyed by an active fourth quarter (4QFY21) net profit of RM95.85 million, a 77% increase for the same period of the previous year.

Revenue in the 4QFY2021 rose 33% to RM692 million, compared to RM519 million of the corresponding quarter of the previous year. The brewer attributed the improved sales to the reopening of economic sectors and early Chinese New Year celebratory sentiments. This quarter also saw a price adjustment for certain products to compensate for rising input costs. Heineken recorded a revenue

of RM1.98 billion in FY21, 12% higher than the RM1.76 billion recorded the previous year. Nevertheless, revenue still fell below pre-pandemic level of RM2.32 million recorded in 2019.

The company's profit before tax grew 85% due to improved sales performance across all brand portfolio, effective cost management and the absence of a one-off provision of RM14

million in December 2020 for costs associated with the organisational restructuring exercise implemented in 2021.

Despite having to stop operations for 11 weeks in 2021, the brewer said in a statement that its team pulled together various strategic initiatives to unlock efficiencies that aided in overcoming the many challenges and rake in the commendable set of results achieved in FY21.

As international borders remain closed due to the recent rise in Covid-19 cases, coupled with an escalation of input costs and logistics issues, Heineken affirms a challenging external environment. However, the Government's decision not to increase excise duties on beers and stouts in the Budget 2022 provides a degree of reprieve, and will prevent the proliferation

of illicit alcohol demand.

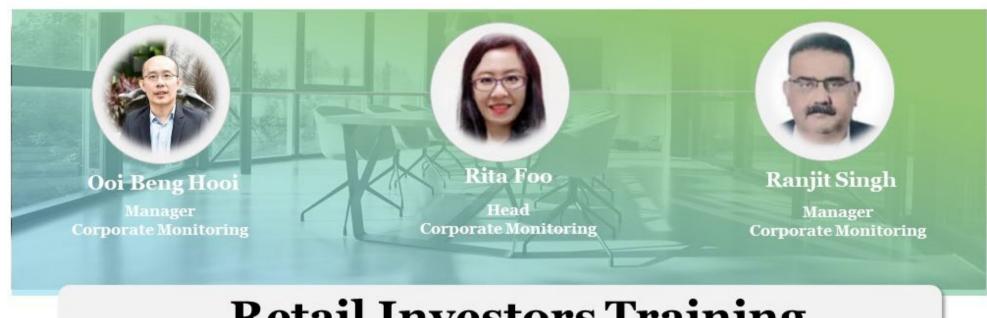

Heineken's portfolio includes 12 international brands, among them Guinness, Anchor, Tiger, Edelweiss, Kilkenny and Anglia. On Thursday, Heineken's share price closed at RM21.88, giving the group a market capitalisation of RM6.61 billion.
