# PM announces RM35 billion Penjana to generate short-term recovery

By Stella Goh

“Malaysia’s economy is expected to recover with a return of growth in 2021...The World Bank”

Last Friday (5Jun), Prime Minister Tan Sri Muhyiddin Yassin unveiled a RM35 billion stimulus package which will cover 40 initiatives to help stimulate the economy recovery from the impact of Covid-19. The short-term Economic Recovery Plan (ERP) package called “Pelan Jana Semula Ekonomi Negara” or “Penjana” was launched with three major goals to empower the people, propel businesses and to stimulate the economy.

The automotive, plantation and property sectors are some of the beneficiaries from the Economy Recovery Plans (Penjana). The PM announced that for the automobile sector there is a 100% sales tax exemption on locally assembled Completely Knocked Down (CKD) models while a 50% exemption on fully imported Completely Built-Up (CBU) models starting from June15 until Dec31. This move is expected to help overcome the lost sales and production during MCO.

In order to tackle the problem of unemployment, Prime Minister stated that the government will allocate RM9 billion to ensure job sustainability during the national recovery period post Covid-19. The allocation will be channelled through various initiatives which will benefit three million workers in the country. The initiatives will be set at RM600 per worker for up to 200 workers per company.

In addition the government will allocate RM50 million in matching grants for companies in the gig economy to make SOSCO and EPF contributions for their workers. There will be a special committee chaired by the ministers of Finance and Human Resources with members comprising leaders from the public as well as private sector to monitor initiatives related to the workers. In line with the government’s call to encourage SMEs to implement work-from-home practices, insurance coverage and tax incentives will be provided.

As businesses had been struggling with cashflow issues and reduced demand, the government assured that there would be help for all businesses regardless of size through various initiatives such as Shop Malaysia Online to encourage online shopping through the provision of promotion codes among others. There will be a RM700 million allocation to help SMEs digitalise their operations. Tax incentives would be extended for companies purchasing equipment such as Property, Plant and Equipment as well as thermal scanners. The government also will provide income tax rebates of up to RM20,000 for three years of assessment for SMEs set up between July1 and Dec31 in this year.

Furthermore, there will be a reintroduction of the Home Ownership Campaign (HOC) which will see various incentives such as stamp duty exemptions for the purchase of homes costing between RM300,000 and RM2.5 million from June1, 2020 to May31, 2021 subject to a developer’s discount of at least 10%. The ERP will also encourage foreign direct investments (FDI) where companies both foreign and local, which make capital investment of between RM300 million and RM500

million will be able to enjoy zero investment tax for 10 years. While for capital investment above RM500 million, companies will be given 15 years of tax holidays. For Malaysian companies which relocate their overseas facilities back to home, will be entitled to a 100% Investment tax allowance for five years, which the tax holidays are subject to location transfer.

On 7 June, PM also has announced that the Conditional Movement Control Order (CMCO) will be replaced by the Recovery MCO (RMCO) with more relaxed conditions from June10 to Aug31 which will allow interstate travel, meetings and workshops and this augurs well for the tourism industry and marks the beginning of the recovery of domestic tourism.

According to The World Bank’s representative Firas Raad, Malaysia’s economy is expected to recover from the end of this year with a return to growth in 2021. With the pro-growth policies coupled with incentives, it would help to push the private sector which is the engine for growth from the current economic downturn. Firas Raad also added that Malaysia should continue its efforts on the reform agenda such as governance, regulatory environment and competition in economic sectors as well as education reformation in its bid to achieve a high-income nation status. The World Bank is also in the midst of reviewing the economic impact of Covid-19 before deciding whether to revise the country’s 2020 Gross Domestic Product (GDP) growth target this month. Business activities in Malaysia are resuming as the country gradually eases itself from the Covid-19 MCO measures.

This week, on Thursday (11Jun), the Ringgit was 4.2495 against USD from 4.2753 on Tuesday (9Jun). Meanwhile, the Ringgit was 3.0493 to the Sing Dollar on Thursday (11Jun).

On Tuesday (9Jun), the FBM KLCI gained 18.83 points or 1.21% to 1575.16 from previous Friday’s close of 1556.33. But as at Friday (12Jun) 10:00am, the FBM KLCI was at 1529.79 seeming to have followed the global markets which have all taken a breather from the bullish ride over the past 2 months.

# EITA Resources Berhad (5208)

By Stella Goh

## OVERVIEW

EITA Resources Berhad (EITA) was founded in 1996 and is headquartered in Subang Jaya, Selangor. The company has grown to be a leading supplier to electrical contractors, switchboard fabricators, original equipment manufacturers (OEM) and manufacturers of Elevator Systems and Busduct Systems in Malaysia. Today, the company has expanded its business operations to the other Asian countries.

EITA was listed in Main Market of Bursa Malaysia on 9 April 2012. The company's suppliers and technology partners comprise some of the most respected names in the world such as Fuji Electric Asia Pacific, Leoni Studer AG (Switzerland), Panasonic Electric Works, Kyoritsu Keiki Co Ltd to name a few. EITA Research & Development Sdn Bhd provides in-house research and development (R&D) services for its own elevator and busduct products.

## BUSINESS MODEL

EITA is involved in three core business segments namely E&E Components & Equipment, Elevators and Busduct Systems. Its business activities revolve around Design and Manufacturing, Marketing and Distribution, and Services for both passenger and commercial goods elevator systems.

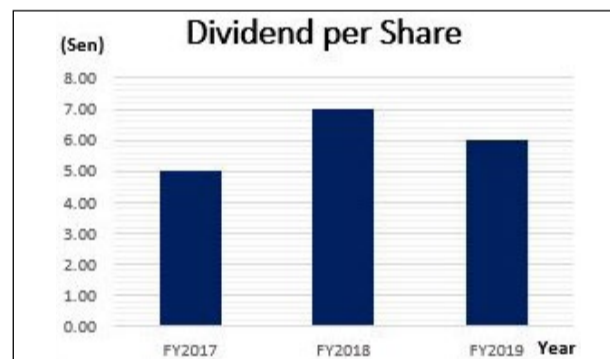

The services provided by the company include designing, manufacture, installation, modernization, commissioning, maintenance and customization such as car size, interior design, hall door jamb, hall call button as well as indicators to suit its customer needs. As the company strives for modernization, passenger elevators can be equipped with LCD panels as well as audio systems to provide passengers with entertainment, news and advertisements.

To provide more rounded service to the clients, EITA also offers products and services such as power equipment system, cabling system, control equipment system and local area network (LAN), security systems, green technology, lighting and surge protection. To-date, EITA has installed over 3,400 units of elevators and escalator systems.

## FINANCIAL REVIEW

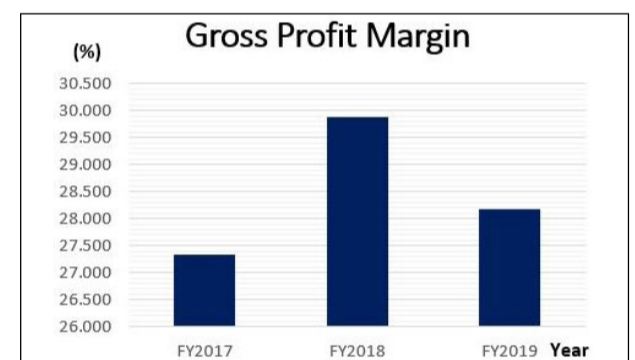

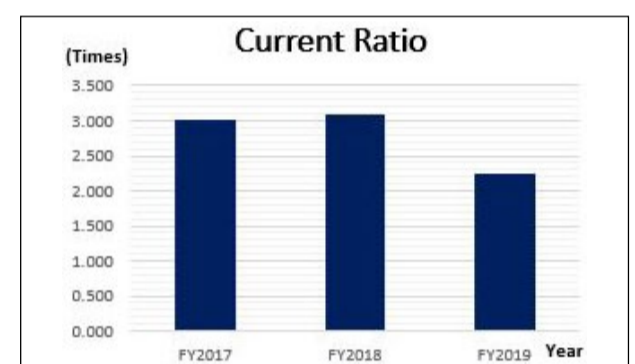

For FY2019, EITA has declared a first interim dividend of 3sen per ordinary share equivalent to RM3.899 million which was paid to its shareholders on 27 September 2019. EITA also has paid a final dividend of 3sen per ordinary share also amounting to

RM3.899 million for the financial year end with a total final dividend of 6sen per ordinary share (4.36% dividend yield) in FY2019. Despite the total dividend paid in FY2019 being not the highest over the past 3 years, EITA has been able to pay out a favorable dividend consistently with a dividend payout ratio of 37.5%. The company has been consistently declaring a dividend payout of more than 30% of its net profit to its shareholders over the past 4 years. (refer to *Prospects & Challenges and Insight at the end of this article*)

EITA has achieved the lowest quality of earnings of 1.133 times in FY2019 over the past 3 years. In spite of this EITA was still able to maintain its quality of earnings at more than 1 time over the past 3 years indicating that the company's operating cash flow generated from the business is more than the net income suggesting that the business has strong cash flow and is financially sound.

Based on the computation of liquidity ratio, EITA has a current ratio of 2.232 times in FY2019 as compared to 3.100 times in FY2018. Even though the current ratio in FY2019 was the lowest over the past 3 years it still indicates that the company does not face any liquidity issue as it is capable of paying back its current liabilities (RM111.806 million) if any unforeseeable circumstances occur. EITA is able to do so by using its current assets such as inventories, contract assets, trade and other receivables, current tax assets, deposit, prepayments, cash and bank balances amounting to RM249.570 million.

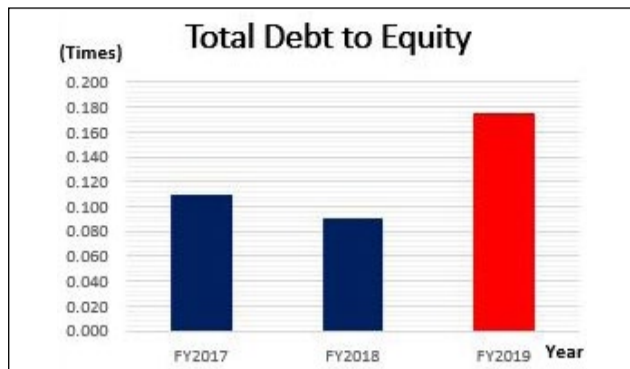

EITA has a marginally lower gross profit margin of 28.17% in FY2019 as compared to 29.87% in FY2018 but was still higher than the 27.3% in FY2017. The decrease of Gross Profit Margin in FY2019 was mainly due to the increase of contract costs recognized as expenses and cost of goods sales as compared to FY2018. However, the company has achieved a total revenue of RM305.386 million in FY2019 compared to RM261.295 million in FY2018. The increase in revenue was mainly due from the Manufacturing (35.8%), Marketing & Distribution (25.9%), High Voltage segments (25.2%) and Services (13.1%).

EITA's Return on Equity has tapered down to its lowest over the past 3 years at 12.01% in FY2019. However the company was still able to maintain its Return on Equity (ROE) of more than 10% indicating that it is being well managed and is making good profit relative to its shareholders' capital. It may also indicate that the sales generated by the company is more than its asset since the company has an asset

turnover ratio of more than 1 times in FY2019. The management of the company is seen as effective and capable in effectively deploying the resources in the company as well.

EITA has achieved the highest Total Debt to Equity ratio of 0.175 times in FY2019 among the past three financial years. Even though the Total Debt to Equity ratio of EITA has increased in FY2019, the company is able to pay off its debt obligations as its total liabilities amounted to RM127.590 million as compared to RM176.215 million of total equity.

## CASH FLOW STATEMENT

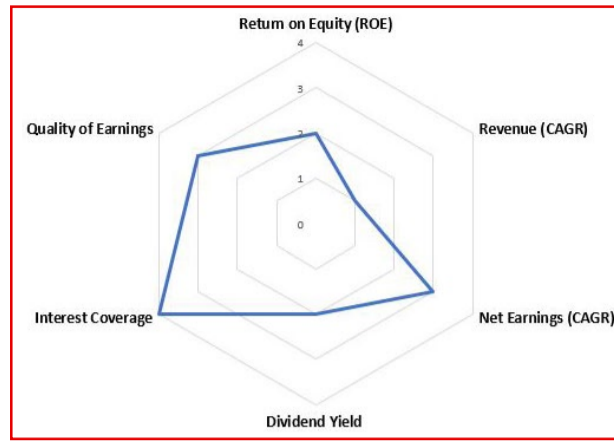

The net cash from operating activities has provided a positive cash flow of RM24.715 million in FY2019 as compared to RM26.794 million in FY2018. The decrease in net cash from operating activities was mainly due to the increase in working capital requirements for the company's on-going operations. Even though the cash flow is lesser in FY2019, the company has enough cash to use for business expansion.

The net cash from investing activities in FY2019 (-RM17.177 million) was mainly due to the acquisition of property, plant and equipment (RM15.606 million), acquisition of investment property (RM1.805 million), acquisition of intangible asset (RM255,000) and tax paid on the gain of disposal of investment (RM15,000). The negative cash flow indicates that the firm is investing in its business for growth.

The net cash generated from financing activities in FY2019 (RM6.023 million) was mainly due to proceeds received from bills payable (RM6.551 million) and proceeds received from term loans (RM8.833 million).

## PROSPECT AND CHALLENGES

The current geo-political and economic situation certainly poses some challenges ahead. In particular, the on-going trade tensions between China and the United States, Brexit, protectionist European Union sentiments, geopolitical tensions in the Middle East and volatility of commodity prices.

According to Managing Director Fu Wing Hoong, he remains confident that the current situation is only a slight hiccup to another potentially good year. He also expressed optimism that the company will produce similar, if not better results than FY2019, backed by the company's existing order book. As at the end of FY2019, its order book stood at a total of RM512.52 million of which about 42% or RM215.33 million was from its manufacturing business. The company's high-voltage system segment, which involves installation of power substations, has also been growing steadily and now comprises 54% or RM276.38 million for the company's order book. The contract periods for the projects in both segments range from two to three years.

EITA's current orderbook included government projects under the Light Rail Transit Line 3 (LRT3) and Mass Rapid Transit 2 (MRT2) to provide lifts and escalators installation and maintenance services. Both projects have been re-evaluated and renegotiated by the previous government which resulted in the LRT3 original contract sum of RM195 million being reduced to RM67.5 million but the MRT2 contracts value remains unchanged at RM70 million. The Managing Director stated that the MRT2 project's contract value has been added to its FY2020 orderbook with the revenue progressively recognized from this year until FY2022.

## RATING SYSTEM

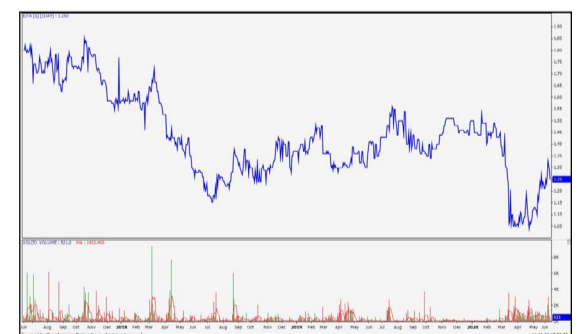

- Return on Equity (ROE) = **Average**
- Revenue [3 Years CAGR] = **Poor**
- Net Earnings [3 Years CAGR] = **Good**
- Dividend Yield = **Average**
- Interest Coverage = **Excellent**
- Quality of Earnings = **Good**

## MY INSIGHT

Based on calculation on the Discounted Earnings Model, EITA has an intrinsic value of RM1.689. The current share price of EITA is RM1.25 which makes it an undervalued stock (as at 11 June 2020). EITA has a beta of 0.703 (500 days) indicating that the share price is less volatile than current market. Based on computation of Compound Annual Growth Rate (CAGR), EITA has an expected market return of 2.04%.

In conclusion, EITA may look attractive to investors due to its consistent dividend payout for the past 4 years which worked out to a dividend yield of 4.36%. EITA's debt level will be comforting to those investors who find a company's high debt reason for concern due to the global economic uncertainty ahead. The company has a net cash of RM68.727 million in FY2019 as well as more liquid assets (RM249.570 million) as compared to its current liabilities (RM111.806 million). According to the Deputy Transport Minister Kamaruddin Jaffar, the government has always given priority to improving the public transport system with several large scale public transport projects under construction in Klang Valley such as the Sungai Buloh-Serdang-Putrajaya MRT and LRT3 projects which would boost economic growth while increasing the use of public transport in Klang Valley. Meanwhile, the company's prospects remain bright as the company's long-term plans as a provider of lifts and escalators for Light Rail Transit Line 3 (LRT3) and Mass Rapid Transit 2 (MRT2). While investors will need to take into consideration all aspects that could positively affect growth prospects, they still will have to bear in mind the other events that could pose challenges to businesses in the near future.

## Axiata Group Berhad

Axiata Group Berhad (**AXIATA**) wishes to announce that Axiata SPV1 had fully redeemed the entire Notes amounting to USD300 million aggregate principal amount and the interest of USD8,062,500.00 effective on the maturity date of the Notes on 28 April 2020. Following the Redemption of Notes, it has been delisted from The Stock Exchange of Hong Kong Limited as of 28 April 2020 and is in the process of delisting from the Labuan International Financial Exchange Inc.

## ELK-DESA®

### ELK-Desa Resources Berhad

ELK-Desa Resources Berhad (**ELKDESA**), a non-bank lender focused in the used-car segment, today announced its financial results for the fourth quarter ended 31 March 2020. During the quarter under review, the Group registered a 16% increase in revenue to RM37.50 million, compared to revenue of RM32.46 million recorded in the corresponding quarter a year ago.

### HSS Engineers Berhad

Engineering and project management consultant HSS Engineers Berhad (**HSSEB**) expects to remain resilient as it adapts to the "next normal" and continue supporting the nation's infrastructure development initiatives. The Group is now tendering for RM215 million worth of projects across the transportation, port and water sectors. The sectors are within HEB Group's core expertise, with HSS Engineering specializing in rail, road and ports, while SMHB Engineering is leading in water sector infrastructure engineering.

### Malaysia Airport Holdings Berhad

Malaysia Airport Holdings Berhad (**AIRPORT**) network of airports registered approximately 237,000 passengers in May 2020, a decline of 97.8% over May 2019. International and domestic passenger movements recorded 33,000 and 204,000 passengers respectively. On a last-twelve-month basis, the total AIRPORT network of airports registered 111.2million passengers, a decline of 17.9% over the same period last year. Overall aircraft movements contracted by 88.5% with international and domestic aircraft movements declining by 92.8% and 85.5% respectively over May 2019.

### Malaysia Building Society Berhad

On behalf of the Board of Directors of Malaysia Building Society Berhad (**MBSB**), AmInvestment Bank Berhad wishes to announce that the listing application in respect of the Dividend Reinvestment Plan had been submitted to Bursa Malaysia Securities Berhad on 5 June 2020.

KEJURUTERAAB ASASTERA BERHAD

### Kejuruteraan Asastera Berhad

On 21 May 2020, Kejuruteraan Asastera Berhad (**KAB**) had announced and distributed to the shareholders its Notice of Twenty-Third Annual General Meeting scheduled to be held physically on Monday, 22 June 2020 at Hotel Espira Seri Petaling (Formerly known as Hotel Seri Petaling), Function Room 2 & 3, Level 2, No. 30, Jalan Radin Anum, Bandar Baru Seri Petaling, 57000 Kuala Lumpur at 9.30 a.m. The mode and venue of AGM of the Company which was scheduled to be held physically on 22 June 2020 will now be changed to be held as a FULLY VIRTUAL meeting through live streaming from the Broadcast Venue at No. 18, Jalan Radin Bagus 9, Bandar Baru Seri Petaling, 57000 Kuala Lumpur and online remote voting using the Remote Participation and Voting Facilities. Other details of the AGM shall remain unchanged.

### Malaysia Holdings Berhad

The Board of Directors of MSM Malaysia Holdings Berhad (**MSM**) wishes to announce that the Board has approved the following changes in respect of the Board Committees of the Company effective from 10 June 2020:

- (i) Merger of the Audit Committee and Board Governance & Risk Management Committee into one Board Committee and renamed as the Audit, Governance and Risk Committee.
- (ii) Establishment of a new Board Committee known as the Investment and Tender Committee effective from 10 June 2020.

PRESTARIANG™

### Prestariang Berhad

Prestariang Berhad (**PRESBHD**) announcements dated 15 April 2019, 16 July 2019, 31 October 2019 and 4 December 2019 in regard to the updates on legal proceedings by Prestariang Skin Sdn Bhd (PSKIN) refers. As announced earlier, GOM had appealed against the High Court Judge's decision to dismiss its application to convert PSKIN's Originating Summons to a Writ action on 30 October 2019. On 10 June 2020, the Court of Appeal found that there was no merit to GOM's appeal and awarded costs to PSKIN. In dismissing GOM's appeal, the Court of Appeal held that GOM would not suffer any prejudice with PSKIN's action continuing by way of OS in light of the directions given by the High Court Judge to allow for the cross-examination of the various deponents as well as for expert evidence to be tendered.
