Six "R"-words to mark upcoming budget as govt seeks to revitalise economy

" BNM reduces OPR to 1.75pc to accelerate economic recovery "

Students can return to universities, colleges beginning this month, in phases

The Higher Education minister Datuk Dr Noraini Ahmad Tertiary announced that students will be allowed to return to campus in phases starting this month. In making the announcement, he said four categories of students can resume in-person classes beginning this month while all other remaining students will return in October. The four categories include 30 per cent of local students in private higher education institutions; first to fourth-year public university students who need clinical or practical training, workshop, laboratory, studio or special equipment and those who need to sit for professional board examinations. The other two categories also include first to fourth-year university students who do not have access to internet or a conducive learning environment; and international students from both public and private institutions, including new students.

Banks expected to set aside more provisions

According to RAM Ratings, Banks are expected to set aside more provisions as lenders brace for possible higher loan delinquencies when the six-month loan moratorium for individuals and small and medium enterprises (SMEs) expires at the end of September. The credit ratings agency said such measures were "prudent" as eight local banking groups reported heavier year-on-year impairments for the first financial quarter this year (1Q 2020) amid a challenging economic climate caused by the Covid-19 pandemic and the ensuing movement control order (MCO).

RAM's co-head of financial institution ratings Wong Yin Ching said the average credit cost ratio spiked up to 62bps from 18bps (or 25bps after adjusting for a one-off item) in 1Q 2019. One bank also incurred higher provisions due to a lumpy default in its Singaporean operations. RAM Rating has just published its Banking Quarterly Roundup 1Q 2020. But the asset quality for banks remained robust with gross impaired loan (GIL) ratio of 1.55% as at end-May (end-Dec 2019: 1.51%), RAM said. RAM, however, did not rule out troubled loans to surface in 2021. As for this year, the ratings agency continues to expect margins to be under pressure for banks as they reported a notable lower average pre-tax return on assets of 1.10% and return on equity of 10.7% for 1Q 2020 (1Q 2019: 1.43% and 13.2%). Overall, the banking industry's loan growth is projected to taper off to 1%-2% in 2020.

This week, on Thursday (9July), the Ringgit was 4.2650 against USD from 4.2840 on Monday (6July). Meanwhile, the Ringgit was 3.0670 to the Sing Dollar on Thursday (9July).

On Monday (6July), the FBM KLCI gained 24.25 points or 1.56% higher to 1576.90 from previous Friday's close of 1552.65. And as at Friday (10July) 10:00am, the FBM KLCI was at 1578.84 appearing to trade sideways for the week from Monday as several US states saw record breaking spikes in new Covid-19 cases and deaths with the looming possibility of renewed lockdowns that could further impact economic recovery. Also it being earnings reporting season where most reports are showing severe impact on corporate revenues during the pandemic, investors are on the side-lines after some profit taking.
