Govt disburses RM11.06bil cash aid

According to Finance Minister Tengku Datuk Seri Zafrul Abdul Aziz, the total disbursements of Bantuan Prihatin Nasional (BPN) increased 1.28 per cent to RM11.06 billion as at July 13, from RM10.92 billion last week. This involved 10.4 million recipients compared to 10.24 million recipients received last week. As at July 13, 4.43 million applications had been approved for the Employees Provident Fund (EPF) i-Lestari programme with the total cumulative withdrawal from April to July amounting to RM5.37 billion. It should be noted that EPF savings, including Account 2 savings, are retirement savings for the future. The public are advised to utilise the free Retirement Advisory Service (RAS) provided by the EPF to facilitate savings planning. On the EPF's Covid-19 Assistance Programme (e-CAP) for employers, the government received a total of 39,323 applications and 11,370 applications were approved, amounting to RM76.1 million in terms of employers' contribution, up to July 13. Meanwhile, total financing for the SME Soft Loan Funds administered by Bank Negara Malaysia, that had been approved by local banks and officially accepted by SMEs, was RM9.1 billion, benefitting 20,545 SMEs. He added that as at July 13, a total of 129,169 vacancies had been advertised and 159,591 job seekers were registered through the MYFutureJobs portal under SOCSO's Workers' Hiring Programme, Penjana Kerjaya. Between June 15 and July 10, a total of 5,300 job seekers were successfully employed.

IMF chief warns global economy 'not out of the woods', dangers lurk

According to IMF managing director Kristalina Georgieva, the Global economic activity is picking up after an unprecedented decline this year due to the coronavirus pandemic but a second major wave of infections could trigger more disruptions. The fiscal costs of actions aimed at containing the pandemic and mitigating its economic fallout were driving up already high debt levels, but it was premature to start withdrawing needed safety nets. She added that we are not out of the woods yet. The IMF had last month further slashed its 2020 global output forecasts, predicting a 4.9% contraction and weaker-than-expected recovery in 2021. US\$11 tril in fiscal measures by G20 members and other countries, as well as massive central bank liquidity injections, have put a floor under the global economy. Even so, dangers lurked, she said, including a major new wave of infections, stretched asset valuations, volatile commodity prices, rising protectionism and political instability. Some countries lost more jobs in March and April than had been created since the end of the 2008 global financial crisis, and many of those jobs will never return. Job losses, bankruptcies and industry restructuring could pose significant challenges for the financial sector, including credit losses to financial institutions and investors, she said. To ensure stability, continued coordination across central banks and support from international financial institutions was essential. Regulation should also support the flexible use of capital to keep credit lines open for businesses.

InvestKL and CCB Bank launch smart matchmaking platform

InvestKL and China Construction Bank (Malaysia) Bhd (CCB Bank) launches CCB Match Plus, a global business-to-business (B2B) one-stop smart matchmaking service platform. InvestKL chief executive officer Muhammad Azmi Zulkifli and CCB chief executive officer Felix Feng Qi officially rolled out the platform which utilises big data to allow enterprises to source for financial resources, projects, suppliers and list of products and services internationally. InvestKL is the first government agency invited to collaborate with CCB in launching this B2B smart matchmaking platform which will provide the opportunity to potentially engage with Chinese companies, especially those operating in the Digital and Industry 4.0 initiatives. The versatility of this platform was clearly demonstrated recently by enabling Malaysian enterprises to source for medical relief supplies during the Covid-19 pandemic. On the CCB Match Plus platform, CCB Bank acts as a third-party service provider connecting online and offline channels, domestic and overseas markets, internal and external systems.

OPEC+ eases record oil cuts as economy recovers from pandemic

OPEC and allies such as Russia have agreed to ease record oil supply curbs from August as the global economy slowly recovers from the coronavirus pandemic but said a second wave of the virus could complicate rebalancing in the market. The Organisation of the Petroleum Exporting Countries and its allies, known as Opec+, have been cutting output since May by 9.7 million barrels per day, or 10 per cent of

IMF chief warns global economy 'not out of the woods', dangers lurk

global supply, after the virus destroyed a third of global demand. From August, cuts will officially taper to 7.7 million bpd until December. According to Saudi Arabian Energy Minister Prince Abdulaziz bin Salman, the effective curbs would be deeper because countries which overproduced in May-June would make extra cuts in August and September to make up, so total cuts would end up amounting to about 8.1 million to 8.3 million bpd. Oil prices have recovered to almost US\$43 a barrel from a 21-year low below US\$16 in April. The recovery has allowed some US producers to resume production.

Malaysia records RM37.4b approved investments in 1Q, with domestic sources contributing 70%

According to the Malaysian Investment Development Authority (MIDA), Malaysia recorded RM37.4 billion worth of approved investments in the manufacturing, services and primary sectors in the first quarter (1Q) of this year, of which 70.4% or RM26.3 billion comprised direct domestic investment (DDI). It said the top five sources of foreign direct investment (FDI) were Switzerland with RM2.7 billion investment, Singapore (RM2.1 billion), the United States (RM2.0 billion), China (RM1.4 billion) and Japan (RM0.9 billion). The manufacturing sector was the largest contributor to the value of approved investments in 1Q20 at RM25.2 billion, followed by the services sector (RM11.9 billion) and the primary sector (RM0.3 billion). These investments involved 892 projects and would create over 19,100 jobs for the country, the agency said. MIDA said five states — Sabah, Penang, Selangor, Johor and Kuala Lumpur — contributed RM30.0 billion (80.1%) to the total approved investments for January to March 2020. In terms of number of approved projects, the services sector was the top contributor during the quarter, accounting for 70%. These investments involved 669 services projects that will add over 3,400 new jobs to the economy. Of the total, domestic investments represented 97.5% or RM11.6 billion, while foreign investments accounted for 2.5% or RM0.3 billion," said the agency. From January to March 2020, approved investments by foreign sources led the majority of investments in this sector totalling RM144.4 million, while domestic investments contributed RM136.9 million.

Bursa Malaysia confirms trading across the exchange halted due to 'technical issue'

Trading halted on Bursa Malaysia at 3.30pm Thursday (16July) and did not resume for the rest of the day. According to a notice posted on its website it was due to a technical issue the cause of which was being investigated. Trading resumed to normal at 9.00am this morning Fri (17July).

This week, on Thursday (16July), the Ringgit was 4.2675 against USD from 4.2605 on Monday (13July). Meanwhile, the Ringgit was 3.0664 to the Sing Dollar on Thursday (13July).

On Monday (13July), the FBM KLCI gained 14.59 points or 0.92% higher to 1606.43 from previous Friday's close of 1591.84. And as at Friday (10July) 10:00am, the FBM KLCI was down at 1584.03 as the regional markets may continue with their consolidation dragged by the heavy selling in China stock market yesterday.

Price & Total Shareholder Return (As at yesterday)

Fundamental Analysis

Definition

A growth company is any company whose business generates significant positive cash flows or earnings which increase at significantly faster rates than the overall economy. A growth company tends to have very profitable reinvestment opportunities for its own retained earnings.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.

DIVIDEND STOCKS

Price & Total Shareholder Return (As at yesterday)

Fundamental Analysis

Definition

A dividend company is any company that pays out regular dividends. It is usually a well-established company with a track record of distributing earnings back to shareholders.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.
