Russia's COVID-19 vaccine halts Bursa's gloves sector rally and causes gold to collapse below US\$1,900

Bursa Malaysia's glove-makers ended lower after being dragged by persistent profit-taking in the healthcare sector. Investors changing focus on other sectors reflects their hopes that the coronavirus will be contained amid Russia's and Indonesia's Covid-19 vaccine announcements. The heavy sell down on Wednesday erased a total of RM23.1 billion worth of market capitalisation from the seven glove counters, of which RM21.83 billion was wiped out among the big four glove counters. Gold also was not spared when it sank below US\$1,900 an ounce to head for its biggest two-day loss in more than seven years.

Bursa amends listing requirements on new security issuance, independent director definition

According to a statement from Bursa Malaysia Bhd, it has amended the Main Market and ACE Market listing requirements to enhance the disclosure requirements involving the new issue of securities. It has also made amendments to the requirements to enhance the definition of independent directors to address gaps for greater protection and confidence. Integrity and quality of the board remain a key focus. The exchange has enhanced the definition of independent directors by extending the cooling-off period for specific persons (such as an existing or former officer, adviser or transacting party of the listed issuer or its related corporation), to three years (from the current two-year period), and subjecting a non-independent non-executive director to such revised cooling-off period. This is to strengthen the independence of a proposed director so that he is free from any business or other relationship which could interfere with the exercise of independent judgement of a director. Most of the amendments will take immediate effect, while other amendments, like the one on enhanced definition of independent directors will become effective on Oct 1.

Govt's debt, liability exposures to reach RM1.264t at end of 2020

Based on the application of Standard Government Finance Statistics 1986, the federal government debt stood at RM823.8 billion while the debt position at 53.6 per cent of Gross Domestic Product (GDP), based on the statutory limit. However the government also bore the liability and exposure to financial commitments, including guarantees amounting to RM166.9 billion to implement infrastructure projects such as LRT, MRT and the Pan-Borneo Sarawak Highway projects. The government is also exposed to the 1Malaysia Development Bhd (1MDB) debt amounting to RM32.6 billion as well as RM181.4 billion in other financial liabilities, comprising Public-Private Partnership projects, Private Financing Initiatives (PFI) and Pembinaan BLT Sdn Bhd.

Wholesale and retail trade sales nearing pre-Covid-19 levels in June

According to the Department of Statistics Malaysia (DOSM) sales value of Malaysia's wholesale and retail trade grew double-digit to 21.8 per cent in June compared to that of May, nearing the pre-movement control order (MCO) levels. Chief statistician Datuk Seri Dr Mohd Uzir Mahidin said wholesale trade sub-sector contributed the most to this uptrend, increasing by RM8.3 billion or 20.3 per cent to RM49 billion, followed by motor vehicle which grew RM5.3 billion or 78.9 per cent to RM12.1 billion. Similarly, retail trade rose RM4.8 billion or 13.0 per cent to RM41.8 billion. Sale of other specialised wholesale spearheaded the increment of the wholesale trade sub-sector with a growth of 35.6 per cent month-on-month to RM17.3 billion. Meanwhile, wholesale of household goods grew by 20.1 per cent to RM10.3 billion and the wholesale of machinery, equipment and supplies generated sales of RM4.2 billion, expanding 23.2 per cent compared to that of May 2020. Meanwhile, sale of motor vehicles recorded the highest month-on-month increase of RM3.5 billion, growing by 113.5 per cent to RM6.7 billion. For retail trade, all retail activities continued to record a positive growth in June, especially retail sale in non-specialised stores of RM16 billion, an increase of RM1.4 billion or 9.1 per cent compared to prior month. This was followed by retail sale in specialised stores, which rose RM1.3 billion or 18.8 per cent to RM8.2 billion and retail sale of household equipment, that expanded by 16.6 per cent or RM0.7 billion to RM5.1 billion. Online retail sales index, which portrays e-commerce activity, expanded by 35.5 per cent year-on-year growth.

Investors appear to have turned their focus to non-healthcare sectors for now.

ELK-DESA® ELK-Desa Resources Berhad

ELK-Desa Resources Berhad (**ELKDESA**), a non-bank lender focused in the used-car segment, announced its financial results for the first quarter ended 30 June 2020. During the quarter under review, the Group registered revenue of RM30.40 million, which was 14% lower compared to revenue of RM35.19 million a year ago. The Group's profit before tax also decreased by 76% to RM3.00 million. This was primarily due to the disruptions to operations caused by the Movement Control Order during the quarter as well as the significantly higher impairment allowances incurred for the hire purchase segment in view of the Covid19 pandemic. Hire purchase division remains the Group's core business activity and main profit contributor. Hire purchase receivables as at 30 June 2020 stood at RM567.84 million, which is 11% higher than the previous year.

Heineken Malaysia Berhad

Heineken Malaysia Berhad (**HEIM**) announced its financial results for the first half ended 30 June 2020 (1HFY20), with performance impacted by the Covid-19 pandemic and the Government's Movement Control Order (MCO), particularly in the second quarter ended 30 June 2020 (2QFY20). Group revenue declined by 50% as compared to the same quarter in 2019, mainly due to the prolonged suspension of operations of the Sungei Way Brewery to comply with the MCO enforced by the Government from 18 March 2020 until 3 May 2020 to contain the spread of the Covid-19. Despite the Company resuming its operations and business during the Conditional MCO which took effect from 4 May 2020, the Group business performance particularly in the on-trade channel continue to be adversely impacted. This was mainly because some outlets with liquor license such as pubs and entertainment outlets are still prohibited from operating whilst sales in on-trade outlets such as restaurants and coffee shops was slow due to shift in consumption patterns favoring takeout and at-home options amid public concern on the pandemic. The decline in revenue caused a significant reduction in gross profit contributions, which was insufficient to offset the fixed overhead. Consequently, the Group incurred an unprecedented pre-tax loss of RM24 million in the current quarter under review.
