Parliament approves raising govt debt ceiling to 60%

According to finance minister Tengku Zafrul Aziz, the parliament of Malaysia on Monday approved the government's plan to raise its debt ceiling for the first time in more than a decade, as Southeast Asia's third-largest economy grapples with the economic fallout from the coronavirus pandemic. Parliament voted to allow the government to borrow up to 60% of gross domestic product, as part of temporary measures to mitigate the effects of the pandemic on the public and local businesses. The last time Malaysia raised its debt ceiling was in July 2009 during the global financial crisis, when it increased its maximum borrowings by 10 percentage points to 55% of GDP. The latest raising of the debt ceiling was part of a temporary bill to enable government financing for economic stimulus packages and recovery plans and related matters. Measures under the bill expire at the end of 2022.

Govt in final stage of discussions on toll cut review, Dewan Rakyat told

According to Minister in the Prime Minister's Department (Economy) Datuk Seri Mustapa Mohamed, the government is in the final stages of discussions on reviewing the 18% toll reduction on PLUS highways implemented by the Pakatan Harapan (PH) administration. The discussions are being conducted by several parties, including the ministries of Finance and Works as well as the Public-Private Partnership Unit of the Prime Minister's Department (UKAS). In reply to a supplementary question from Tony Pua (PH-Damansara) on the need for a review of the toll rates, he said that when making decisions, the Govt takes into account all interests. And when it is reviewed, definitely it means the Govt feels that the agreement made by the PH government can be further improved. Users of PLUS-owned highways, except for class 2 and 3 vehicles as well as class 6 and 7 vehicles on Penang Bridge, have been enjoying an 18 sen reduction in toll rates.

Housing and Local Govt Ministry seeks alternative ways to overcome property overhang

According to Minister of Housing and Local Government (KPKT) Zuraida Kamaruddin, her ministry will find alternative ways to overcome the property overhang situation other than imposing a vacancy tax for developers who fail to sell their properties. A decision on the imposition of a vacancy tax on unsold units has not yet been made, although the proposal was based on figures the ministry obtained showing that unsold units are priced at RM500,000 and above. KPKT takes the stand that it will find other methods to prevent developers from building houses that do not meet the people's needs. Before developers begin their construction, KPKT will look at whether there are projects proposed by them that are viable and meet the needs of the people. When KPKT has developed a data system, it should be able to get the right projection because then the developers would be able to assess by using statistical information to help them plan their future construction projects.

Govt in final stage of discussions on toll cut review

Govt planning for next phase of economic empowerment

According to Minister of Finance Tengku Datuk Seri Zafrul Aziz, the government has begun planning for the next phase of economic empowerment which will be further elaborated in Budget 2021. He said the government is confident that the measures taken through Prihatin and Penjana have demonstrated a positive impact on recovery efforts. For Budget 2021, feedback from all levels of society is most welcome. The rakyat can start submitting their suggestions through <http://belanjawan2021.treasury.gov.my>. The portal will be open until Sept 15, 2020.

Singapore tightens restrictions for foreign-worker passes

According to Singapore's Ministry of Manpower, it has tightened regulations around employment visas for foreign workers by raising the minimum salaries for two categories of passes. Employment Pass (EP) holders — in executive, managerial or specialized roles — must earn a minimum monthly salary of S\$4,500, versus a previous threshold of S\$3,900. Those with an "S Pass," or mid-level technical staff, must earn at least S\$2,500 per month — up from S\$2,400. In the financial services industry, the minimum qualifying salary for an employment pass will be increased to S\$5,000, given higher pay in the sector. It's the first time salary requirements have been set higher for a particular industry. Singapore's Government is trying to protect local jobs at a time when retrenchments are on the rise and the city-state faces its worst recession on record. Given its small and aging population, it is also trying to strike a balance that allows for enough hiring of foreign talent, especially in industries like cybersecurity and financial technology. In evaluating applications for both passes, the Ministry will consider whether the employer has shown support for hiring local professionals and Government efforts to recruit and train them, as well as avoiding discrimination against qualified Singaporeans.

This week, on Thursday (27Aug), the Ringgit gained to 4.1715 against the USD from 4.1805 on Monday (24Aug), as the dollar continues to weaken with the Fed supporting the market with unlimited Quantitative Easing (QE). Meanwhile, the Ringgit was 3.0546 to the Sing Dollar on Thursday (19Aug).

On Monday (24Aug), the FBM KLCI shed 8.54 points or 0.54% lower to 1568.58 from previous Friday's close of 1577.12. And as at Friday (28Aug) 10:00am, the FBM KLCI dipped to 1554.29 still maintaining a sideways trend amid uncertainty about a COVID-19 vaccine and reignited hopes on a trade pact between US and China.

GROWTH STOCKS

Price & Total Shareholder Return (As at yesterday)

Fundamental Analysis

Definition

A growth company is any company whose business generates significant positive cash flows or earnings which increase at significantly faster rates than the overall economy. A growth company tends to have very profitable reinvestment opportunities for its own retained earnings.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.

DIVIDEND STOCKS

Price & Total Shareholder Return (As at yesterday)

Fundamental Analysis

Definition

A dividend company is any company that pays out regular dividends. It is usually a well-established company with a track record of distributing earnings back to shareholders.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.

Axiata Group Berhad

Facing the full impact of COVID-19 measures on the regional macroeconomic environment and drastic consumption shifts due to movement restrictions, Axiata Group Berhad (**AXIATA**) demonstrated operational resilience to further secure its balance sheet for the second quarter ended 30 June 2020. YTD20 revenue and EBITDA declined by 2.4% and 0.7% respectively impacted by locked down effects of the COVID-19 outbreak and pre-existing challenges in Ncell. Underlying PATAMI further impacted by higher D&A and higher losses from digital business on contribution to the e-Tunai Rakyat initiative. Estimated COVID-19 revenue and CSR impacts of approximately RM400 million and RM80 million respectively in 1H20.

AirAsia X Berhad

The Board of Directors of AirAsia X Berhad (**AAX**) is pleased to announce the unaudited consolidated results of AirAsia X and its subsidiaries for the second quarter ended 30th June 2020. The Company reported a revenue of RM91.4 million during the quarter against RM1.01 billion charted in the same period in 2019, pre-COVID-19. The Company remained in hibernation throughout 2Q20 and continues in hibernation mode to date, maintaining only minimal operations in support of the repatriation of travellers and transportation of cargo. Seat capacity and the total number of passengers carried during the quarter were recorded at 6,032 and 2,291 respectively, while Passenger Load Factor was recorded at 38%. This came on the back of flights ferrying cargo with minimal passenger take-up during the month of April 2020.

AirAsia Group Berhad

The Board of Directors of AirAsia Group Berhad (**AAGB**) is pleased to announce the unaudited consolidated results of AirAsia Group and its subsidiaries for the second quarter ended 30th June 2020. The Consolidated Group posted 2Q2020 revenue of RM119 million, down 96% from RM2.9 billion in 2Q2019. Airline revenue declined 98% year-on-year as capacity was significantly reduced due to the fleet hibernation at the end of March, prior to a gradual resumption of domestic operations from the end of April as travel restrictions eased. The airline revenue in the quarter was also negatively impacted by RM60 million in refunds. Less impacted in the quarter, non-airline revenue declined 55% YoY.

AFFINBANK Affin Bank Berhad

For the half year ended 30 June 2020, Affin Bank Berhad (**ABB**)'s net income increased by 17.8% as compared to the same period of previous year, driven by higher net gain on financial instruments of RM239.5 million and higher net fee and commission income of RM22.2 million. The Group reported a Profit Before Tax (PBT) of RM267.9 million in 1H2020, a decrease of 33% as compared to RM400.0 million in 1H2019, mainly from higher credit impairment losses of RM170.9 million due to COVID-19, higher overhead expenses of RM99.7 million and recognition of modification loss of RM79.7 million. The modification loss was incurred arising from the waiving of interest charges during the 6-month loan and financing moratorium for Hire Purchase and Personal Financing. Earnings Per Share for 1H2020 was 9.62 sen as compared to 14.80 sen in 1H2019.

Advance Synergy Berhad

The Board of Directors of Advance Synergy Berhad (**ASB**) wishes to announce the unaudited financial results of the Group for the quarter and period ended 30 June 2020. For the current 6-month period ended 30 June 2020, the Group recorded a lower revenue of RM64.8 million compared to a revenue of RM133.1 million recorded for the corresponding period last year, a decline in revenue of 51.3%. All divisions reported lower revenue in 6M 2020 compared to 6M 2019 except for Investment Holding and Property Development & Investment divisions. The higher revenue in Investment Holding was mainly due to inter-company management fee charged which has no impact to the Group whilst the revenue of Property Development and Investment divisions remained relatively stable. With the lower revenue, the Group recorded a lower gross profit of RM24.2 million in 6M 2020 compared to RM42.1 million in 6M 2019. The lower gross profit in 6M 2020 compared to 6M 2019 was partly mitigated by the lower operating expenses and finance cost for 6M 2020 compared to 6M 2019. The lower operating expenses in 6M 2020 of RM44.3 million compared to RM50.0 million in 6M 2019 was mainly due to lower staff cost. Finance cost in 6M 2020 was also lower at RM2.4 million compared to RM3.6 million in 6M 2019 arising from interest cost saving in 6M 2020 with the repayment of borrowings from part of the property disposal proceeds in 2019.

AVILLION
BERHAD

Avillion Berhad

The Board of Directors of Avillion Berhad (**AVI**) wishes to announce the unaudited financial results of the Group for the quarter and period ended 30th June 2020. Group Revenue performance compared to the preceding year's same quarter has reduced by 82%. The lower revenue was mainly due to the impact of 2019 Novel Coronavirus and Movement Control Order which has severely affected the business of the Hotel and Travel Division. The Group registered consolidated loss before interest, depreciation and tax of RM2.232 million as compared to consolidated loss before interest, depreciation and tax of RM0.495 million in preceding year same quarter. The losses was mainly due to the reduction in revenue as a result of COVID-19 and MCO.
