# **SAPOLLO FOOD** an investment opportunity?

## **SUMMARY**

 Apollo Food Holdings Berhad (Apollo Food or The Group) (6432.MY) experienced stagnant revenue growth from 2013 to 2022 but showed improvement in 2023 and 2024. This was driven primarily by increased revenue and lower tax rates, despite declining gross profit margins.

Disclaimer: This article is written for informational purposes only. It does not constitute a solicitation, offer, advice, counseling or recommendation to buy or sell. As such it is not intended to promote the purchase of shares in any way. As a reminder, any type of asset has a risk factor and needs to be evaluated from multiple perspectives. Therefore, any investment decision and the associated risk remains with the investor. The views expressed here are entirely the writer's own.

- The Group is financially sound with zero debt over the past 12 years, and consistently positive operating cash flow. These underscore its status as a cash cow with effective capital allocation.
- I estimated its Earnings Power Value (EPV) to range between RM5.11 and RM6.78 per share. The market price of about RM6.59 at the end of 2024 suggests expectations of sustained improved returns. But the mixed historical performance and management transition make its investment appeal uncertain.

## BACKGROUND

The Group is one of Malaysia's leading manufacturers of chocolate confectionery products and layer cakes. In 2023, Malaysia accounted for about 68% of its revenue. Sales to ASEAN countries (excluding Malaysia) accounted for another 29% with the balance from other countries.

The controlling shareholder changed towards the end of 2023, and the new controlling shareholders took over the operations in Jan 2024. The new controlling party is the indirect major shareholder of Golden Scoop, which has been the master franchisee of Baskin-Robbins in Malaysia and Singapore since 1988 and 2011, respectively. The new controlling party has stated that it intends to continue with the existing businesses of the Group. However, it may consider expanding the product ranges of Apollo either organically or via acquisitions.

Note that the Group has April as its financial year-end. The 2024 performance refers to the FYE April 2024 performance. Unless stated otherwise, the years in this article refer to the financial years.

## **OPERATING PERFORMANCE**

The Group's historical performance is nothing much to shout about. Refer to Chart 1.

- From 2013 to 2024, revenue grew at 1.2% CAGR while PAT grew at 4.8% CAGR. However, revenue and PAT declined from 2013 to 2022. The turnaround started in 2023. There was a similar pattern for gross profitability.
- Over the past 12 years, ROIC averaged 14% while ROE averaged 10%. A big part of the returns was driven by the better returns over the last 2 years.

Was the improvement over the past 2 years due to some management turnaround effort or some externally driven one-off events?

Chart 1: Performance Index and Returns

The Group did not provide many details on its operations in its Annual Reports. However, I think there are several reasons for the performance pattern:

 Gross profit margin averaged 27% for 2023/24 compared to the 2013/14 average of 29%. So, the growth in PAT in 2023/24 was more attributable to revenue growth than gross profit margin improvements.

- There were lower effective tax rates of 21% and 18% respectively for 2023 and 2024 compared to 25% for 2021 and 2022.
- The profit in 2024 was boosted by an RM18.7 million one-off gain from the sale of an investment property.
- I would also conclude that the improvement in the gross profitability in 2023 and 2024 was due more to lower growth in the total assets relative to gross profits.

## **GROWTH PROSPECTS**

The Malaysian confectionery market is not a high growth one as exemplified by the following:

"The Malaysia confectionery market was valued at MYR1.38 billion... in 2021 and is expected to grow at a CAGR of more than 3% during

the forecast period (2021 to 2026)" - Global Data

The key point was that based on the above market research quote and the growth rate shown in Chart 2, Apollo appeared to have lost market share.

## **FINANCIAL POSITION**

I would rate Apollo as financially sound based on the following criteria.

As of the end of Oct 2024,

- It had RM142 million in cash and short-term investments. This is about 52% of the total assets.
- It had zero debt over the past 12 years.
- Over the past 12 years, the Group generated positive cash flow from operations every year. During this period, it generated RM375 million cash flow from operations compared to the RM294 million PAT. This is a good cash conversion ratio.

From 2013 to 2024, Apollo had an average negative Reinvestment rate due to the total negative Reinvestment.

- Reinvestment = CAPEX & Acquisition Depreciation & Amortization + Increase in Net Working Capital.
- Reinvestment rate = Reinvestment/NOPAT
- The negative Reinvestment was because, in many years, the amount spent on CAPEX was less than the Depreciation & Amortization. Furthermore, in certain years, there was a decrease in the Net Working Capital.

Apollo also had a good capital allocation plan as shown in Table 1. Given its low CAPEX, it had lots of excess funds, the bulk of which was returned

Item	Sources	Uses
	RM m	RM m
Cash flow from Ops	375	
Net Debt	0	
CAPEX		31
Dividends		284
Buybacks		0
Cash and Others		60
Total	375	375

Table 1: Sources and Uses of Funds 2013 to 2024

to shareholders. I would consider Apollo a cash cow.

## VALUATION

The picture that emerged from the above analysis is that Apollo is a low-growth but financially sound business operating in a lowgrowth sector. The operating improvements over the past two years appear to be driven primarily by external factors rather than a sweeping management-led turnaround.

Given its low earnings growth track record, I think it is more appropriate to value Apollo based on its Earnings Power Value (EPV). I considered 2 Scenarios.

- Scenario 1: based on the past 12 years' time-weighted average values.
- Scenario 2: based on the 2023 and 2024 average values.

On such a basis, I found that it had an EPV of RM5.11 per share under Scenario 1 and RM6.78 per share under Scenario 2. The market price of Apollo as of the end of 2024 was RM6.59 per share. Refer to the original article for details of the valuation.

Given the change in management, a realistic intrinsic value is probably in between the 2 Scenarios.

The new controlling shareholders acquired the controlling stake for RM5.80 per share. Compared to my EPV under Scenario 2, I would deduce that they do not think that the past 2 years' performance is sustainable. They probably looked at the past 12 years' performance and included some premium for control. I suspect that the previous controlling shareholders would not have sold off their stake without some premium. The market price of RM6.59 almost matches the value under Scenario 2. Why is the current market price higher than the take-over price? I suspect that the market is anticipating improving returns.

- These could be due to improvements in the existing business.
- I also suspect that some in the market may think that the Baskin-Robbins business could be injected into Apollo.

## CONCLUSION

The historical performance of Apollo is not something to be excited about. Its revenue, profits, and returns were trending down from 2013 to 2022. But there were extraordinary growths over the past 2 years. My analysis showed that the PAT growth was due to higher revenue and lower tax rates. But the revenue in 2024 seemed to have levelled off and I do not think the lower tax rates are sustainable. As such I would expect that 2024 would be the peak PAT.

You can see why I consider Scenario 1 as more likely. But I have a caveat. All the above conclusions did not account for the change in management. There is always the possibility of improved performance or the injection of new businesses.

Is Apollo an investment opportunity? I would say that it is based on the take-over price of RM5.80 per share. But at the current market price of RM6.56 per share, there is not enough information to draw a meaningful conclusion.

I am a long-term value investor who has held onto stocks for more than 5 years. My analysis and valuation are from such a perspective. I consider quarterly results "noisy" and focus on long-term trends. This article was derived from a detailed analysis, emphasizing the intersection of business performance and valuation metrics, which was first published on i4value as "Is Apollo Food an investment opportunity?" Refer to the article for further insights on its investment risk vs business performance.

# **Malaysia's** growth momentum tocontinue at 4.7% in 2025 - IMF

A coording to the International Monetary Fund (IMF), Malaysia's strong growth momentum is expected to continue in the near term, with the economy projected to expand by 4.7 per cent this year. The favourable economic conditions present an opportunity to strengthen macroeconomic policy buffers and accelerate structural reforms.

In a statement, the IMF said that Malaysia's external position in 2024 is preliminarily assessed to be stronger than the level implied by medium-term fundamentals and desirable policies. Fiscal consolidation should continue to rebuild buffers and meet the medium-term targets set under the Fiscal Responsibility Act (FRA).

The IMF welcomed the historic enactment of the FRA and urged its swift and thorough implementation. It also recommended achieving a small structural primary balance by 2027. Building on successful subsidy reforms, including for electricity and diesel, it advised gradually phasing out the remaining fuel subsidies.

The IMF also added that inflation, which eased to 1.8 per cent in 2024, is projected to rise to 2.6 per cent this year due to the expected implementation of gasoline subsidy reforms, before moderating to 2.3 per cent in 2026. Risks to growth, mostly external, are tilted to the downside, while inflation risks are tilted to the upside.

Downside external risks include deepening geoeconomic fragmentation, a slowdown in major trading partners, and escalating geopolitical conflicts. Upside growth risks include the faster implementation of investment projects. The upside inflation risks stem from global commodity price shocks and potential wage pressures from increases in the minimum wage and civil servants' pay. The current neutral monetary policy stance is appropriate.

The IMF noted that systemic financial risks appear contained and that the financial sector remains sound. Banks' capital and liquidity positions are robust. Credit growth, corporate and household balance sheets, and real estate markets do not pose systemic risks at this juncture.

The findings were based on the IMF Article IV consultation paper, which reports on discussions between the IMF and a member country.

## BINA PURI'S VARIOUS ANNOUNCEMENTS DRAW SCRUTINY

Recent announcements by Main Market-listed construction and property development outfit Bina Puri Holdings Bhd suggested that it had not been making prompt announcements on material matters on at least five separate occasions.

According to the Bursa Malaysia Main Market Listing Requirements (Main Market LRs), a PLC must immediately disclose any "material information" to the public.

For the uninitiated, "material information" is reasonably expected to have a material effect on the price, value or market activity of a PLC's securities. Very broadly, "material information" can take the form of any development that impacts a PLC's business direction or financial performance, i.e. acquisition/disposal of a business, legal disputes, key management personnel changes or essentially, any information that could influence an investor's decision-making process promptly.

## **DELAY IN MAKING ANNOUNCEMENTS**

Excerpts of announcements on the five occasions are detailed below:

 26 November 2024: Bina Puri revealed that its wholly-owned subsidiary Bina Puri Construction Sdn Bhd (BPCSB) had been served with a winding-up petition on 11 November 2024 - two weeks before the announcement - by Toshiba Elevator (M) Sdn Bhd via its lawyer Messrs. Simrenjeet, Tay & Co<sup>1</sup>.

The petition was initiated to wind up Bina Puri Construction due to default payment under a notice of demand issued by the Petitioner for the amount of RM974,724.74.

As of the date of the announcement, Bina Puri said they were *"seeking legal advice on the matter"*. It did not explain the reason for the delay in making the announcement.

Bina Puri said there will be no immediate material financial and operational impact and no expected loss to the Group arising from the Petition as the petition amount is 1.1% of the Group's net assets.

## From MSWG's The Observer

FRIDAY MARCH 07 2025 Invest | 35

 26 November 2024 - It announced that its indirect whollyowned subsidiary Bina Puri Mining Sdn Bhd (BPMSB) had also 15 days earlier, on 11 November 2024, been served with a winding-up petition by Golden Hiapfatt Quarry & Premix (Sarawak) Sdn Bhd via its lawyer Messrs. Lee Kok Heng & Co<sup>2</sup>.

The petition was intended to wind up BPMSB on the basis of default payment pursuant to a judgment dated 9 February 2022 at the Kuching Sessions Court amounting to RM95,216.48 (including accrued late payment interest rate of 5%).

Bina Puri acknowledged the delay in announcing the windingup petition. It said the Board believed that making any announcement regarding the petition *"would be premature as the group remains in discussions with the Petitioner to resolve the matter amicably"*.

3. **27 January 2025:** Bina Puri clarified its lawsuit with Wisma Majujaya Sdn Bhd (Majujaya or the Plaintiff) after The Edge financial daily had on the same day published an article entitled *"Bina Puri, its Director Tee Hock Seng Face RM28.1m Suit for Purportedly Failing to Pay Up Full Sum in JVA"*<sup>3</sup>.

Bina Puri said the Company, its wholly-owned subsidiary Bina Puri Properties Sdn Bhd (BPPSB) and Bina Puri's director Tan Sri Datuk Tee Hock Seng (collectively the Defendants) had received a Writ and Statement of Claim dated 16 May 2024 from the solicitors of the Plaintiff.

The filing of the case is based on the Plaintiff's contention that the Defendants had failed to fulfil its obligation to pay the Plaintiff the sum of RM28.17 million that is allegedly due and payable under the Joint Venture Agreement (JVA) dated 23 November 2017.

<sup>2</sup><u>https://www.bursamalaysia.com/market\_information/announcements/</u> company\_announcement/announcement\_details?ann\_id=3503217

<sup>3</sup><u>https://www.bursamalaysia.com/market\_information/announcements/</u> company\_announcement/announcement\_details?ann\_id=3519843 At that point, Bina Puri claimed that the case is not expected to have any significant financial and operational impact on BPPSB or the Company for FY2025. Furthermore, the Board opined that **"Bina Puri has a fair and reasonable chance of success** against the Plaintiff's claim".

FRIDAY MARCH 07 2025 Invest | 36

4. 4 February 2025: Referring to the lawsuit Majujaya v Bina Puri, Bina Puri attributed its delay in making an announcement on the lawsuit to it *"being actively engaging with the relevant parties to formulate a resolution to the lawsuit"*.<sup>4</sup>

In the announcement, Bina Puri also updated the public that the Court had granted summary judgment against the Company and BPPSB on 3 February 2025. Accordingly, Bina Puri and the other defendants are ordered to pay the judgment sum of RM28.17 million, with 8% interest, within 14 days of the date of summary judgment delivered. Accordingly, the Company had directed its solicitors to file an appeal and a stay of the judgment.

 4 February 2025: Separately, Bina Puri announced that it had on 29 November 2024 – slightly more than two months earlier – was served with a winding-up petition dated 25 November 2024 by Export-Import Bank of Malaysia Bhd (EXIM Bank) via the latter's advocates & solicitors, Messrs. Amin Karlos<sup>5</sup>.

EXIM Bank has initiated the petition to wind up Bina Puri on the basis of default payment under a notice of demand for the amount of US\$4.89 million and RM17,253.47. Bina Puri said the delay in announcing the Petition was due to ongoing negotiations on the disputed sum.

<sup>4</sup><u>https://www.bursamalaysia.com/market\_information/announcements/</u> company\_announcement/announcement\_details?ann\_id=3521259

<sup>5</sup><u>https://www.bursamalaysia.com/market\_information/announcements/</u> company\_announcement/announcement\_details?ann\_id=3521260 6. 6 February 2025: This is pertaining to Bina Puri having defaulted in the payment to EXIM Bank for a US\$7.645 million US dollar-denominated loan with an initial interest rate of 4% since March 2024 pending finalisation of the restructuring of the said loan<sup>6</sup>.

FRIDAY MARCH 07 2025 Invest | 37

As the Group is in discussion with EXIM Bank to restructure the loan sum, it has temporarily ceased the repayment pending the finalisation of the loan restructuring plan. It claimed it had been delayed in announcing the default in payment as *"the Board believed that making any announcement regarding the default in payment would be premature"*.

#### WINDING UP PETITIONS, LAWSUIT AND DEFAULT IN PAYMENT

A review of the announcements above suggests that Bina Puri has not been making timely disclosures on three winding-up petitions, a lawsuit and a default in payment.

The Company's disclosures consistently cited ongoing discussions, negotiations, and procedural resolutions as reasons for delaying announcements. However, these explanations do not align with the clear requirements of the Main Market LRs.

We find these justifications unconvincing, particularly in the case of the RM28.1 million lawsuit with Majujaya. Why Bina Puri withheld details of the lawsuit from the public since receiving the Writ and Statement of Claim on 20 May 2024, representing an eight-month delay in disclosure, remains unclear.

The reason for the extended delay remains unclear and is best known to the Board. However, the circumstances create the impression that Bina Puri only disclosed the lawsuit under external pressure after it was reported in the press.

#### From MSWG's The Observer

Likewise, Bina Puri has not been forthcoming about three windingup petitions filed against the Company and its subsidiaries. Under Paragraph 9.19(19) of the Main Market LRs, a PLC must make an immediate announcement of winding-up petition against itself, its subsidiaries, or major associated companies irrespective of whether<sup>7</sup>:

- The winding-up has a financial or operational impact on the listed issuer;
- The listed issuer is contesting the winding-up petition or forms the view that there is no merit to the winding-up petition; or
- The listed issuer is in negotiation with the petitioner to arrive at a settlement arrangement.

Lastly, a PLC must immediately announce to the stock exchange any default in payment of either interest, principal sums, or both, in respect of any credit facility or debt securities by the PLC, or any of its subsidiaries or associated companies, irrespective of whether a demand has been made, where:-

- the total amount outstanding of the defaulted credit facility or debt securities, either singly or collectively, is 5% or more of the net assets of the listed issuer based on the latest published or announced financial statements; or
- the default in payment is reasonably expected to have a material effect on the price, value or market activity of any of the listed issuer's securities or the decision of the listed issuer's securities holder or investor in determining his choice of action.

As of 30 June 2024, Bina Puri's net assets amount to RM87.22 million. Meanwhile, the amount demanded by EXIM Bank under the petition dated 25 November 2024 amounted to US\$4.895 million, or equivalent to RM21.646 million based on a conversion rate of US\$: RM4.422.

#### TIMELINESS, TRANSPARENCY AND ACCOUNTABILITY

It is uncertain whether Bina Puri has breached the Main Market LRs as this is a matter best determined through regulatory investigation. However, in today's technology-driven world, where information is increasingly accessible, timeliness and transparency in corporate disclosures are more critical than ever.

Recall that the stock exchange recently reprimanded and fined Waja Konsortium Berhad<sup>8</sup>, IQZAN Holdings Berhad<sup>9</sup> (de-listed on 30 July 2024) and their seven directors for various breaches, of which some are related to failures to make immediate

announcements of financial condition and the transfer of sale shares of a wholly-owned subsidiary to two purchasers.

The two directors of Waja Konsortium were imposed a fine of RM100,000 each, while the five directors of IQZAN were imposed total fines ranging from RM300,000 to RM375,000.

Again, MSWG wishes to reiterate that PLCs and their directors must uphold the principles of full, fair, and timely public disclosure of any material information to enable investors to make informed investment decisions is of paramount importance in ensuring an orderly and fair market.
