Bursa's Trading Volume & Value were **super bullish** during 6 months of MCO

The monthly volume of shares traded on Bursa Malaysia hit a record high of 275.5 billion shares for the month of August 2020. In a pre-MCO and during MCO period comparison, the average monthly volume of shares traded for the 6 months from Sept 2019 to Feb 2020 was 56.6 billion whereas the average for the 6 months from Mar 2020 to Aug 2020 during MCO period was 162.9 billion, reflecting a massive 288% growth. In terms of value of shares traded per month, August 2020 was also the highest at RM136.9 billion. For the 6 months pre-MCO, the average monthly value was at RM43.5 billion whereas the monthly average from Mar 2020 to Aug 2020 stood at RM91.9 billion reflecting an average monthly growth of 211%. However for the month of Sept 2020, volume dropped to 163.7 billion shares and compared to all time high August, the average monthly volume of trade has shed 41%. The average monthly value of trades for Sept 2020 was RM100.6 billion showing a drop of 37% compared to August RM136.9 billion. Talk on the street is that this decline is highly likely to be temporary in view of market correction and profit taking after such a strong rally. Also that the ending of the loans moratorium on Sept 30 may have influenced the retail investors who had thronged the market over the past 6 months to opt for the side lines.

ASNB declares total payout of RM646m for three funds

Amanah Saham Nasional Bhd (ASNB) has declared a total income distribution payout of RM645.9 million for its fixed price fund, Amanah Saham Malaysia 3 (ASM 3), and variable price funds, ASN Equity 5 and ASN Sara (Mixed Asset Conservative) 2, for the financial year ending September 30, 2020. ASM 3, a wholly owned unit trust company of Permodalan Nasional Bhd (PNB), declared a total income distribution payout of RM571.3 million benefitting 513,721 unit holders who currently own 14.3 billion units. The return of 4.0 sen per unit remains competitive and exceeds the benchmark Maybank 12-month fixed deposit return of 2.51 per cent by 149 basis points (bps) for the financial year to date up to Sept 24. ASNB also declared a total income distribution payout of RM12.7 million for ASN Equity 5, which is equivalent to 3.1 sen per unit, to 11,029 unit holders with 413.2 million units. This amounted to a dividend yield of 3.51 per cent based on the net asset value (NAV) of the fund as at September 24. Meanwhile, ASN Sara 2 delivered a total income distribution payout of RM61.9 million, which is equivalent to 3.60 sen per unit for 39,559 unit holders with holdings of 1.7 billion units, providing a dividend yield of 3.61 per cent based on the NAV of the fund as at September 24. The distribution declared will be re-invested as additional units into the accounts of the unit holders and automatically credited on October 1, 2020 for ASM 3, and on October 2, 2020 for ASN Equity 5 and ASN Sara 2. Transactions at all ASNB branches and offices are being temporarily suspended from September 24 to 30 for ASM 3 and from September 29 to October 1 for ASN Equity 5 and ASN Sara 2, to facilitate the computation of the income distribution.

Banks remain committed to helping households & businesses

According to Bank Negara Malaysia (BNM), the banking sector remains committed to helping households and businesses who need assistance after the end of the automatic loan moratorium on Sept 30, to which end banks have introduced a range of packages for affected borrowers. These include targeted extension of the moratorium, as well as repayment flexibilities, to help borrowers based on their specific financial situation. This targeted approach ensures that more resources are available to assist those who are vulnerable. It also enables the banking sector to better support the broader economy through continued lending. The banking industry has been actively reaching out to borrowers in various ways. BNM, together with the banking industry, conducted more than 150 engagement sessions, as well as repayment assistance campaigns across the country and direct engagements with various stakeholder groups, including SME associations. In addition to these efforts, individual banks have directly engaged more than two million borrowers through calls, emails and SMS to offer repayment assistance. To date, about 500,000 applications for repayment assistance have been received, with an approval rate of 98%. However, borrowers who can afford to resume monthly repayments should do so, as this would reduce their overall debt and borrowing costs. The central bank reassured borrowers that applications for repayment assistance at any time before June 30, 2021 will not appear on a borrower's CCRIS records. Borrowers may also seek guidance and explore alternative options for assistance with the Credit Counselling and Debt Management Agency.

Loans totalling RM743m approved under Penjana SME Financing

According to Finance Minister Tengku Datuk Seri Zafrul Abdul Aziz, a total of 3,058

Bank Negara: ASNB declares total payout of RM646m for three funds

small and medium enterprise (SME) applications, involving a loan value of RM742.8 million, had been approved under the PENJANA SME Financing scheme as of Sept 18. The government has allocated RM2 billion for the facility, with priority given to SMEs that have never received any financing from banks. The maximum loan size is RM500,000 per SME. In addition, the government had disbursed RM73.6 million under the TEKUN Business Recovery Scheme as of Sept 18, benefitting 11,059 micro SMEs. SMEs, as an important component in the country's economic growth, are prioritised to ensure business continuity. On the PENJANA Micro Credit Financing under Bank Simpanan Nasional (BSN), a total of RM55.31 million had been disbursed, benefitting 1,480 SMEs and micro SMEs. To ensure the sustainability of Bumiputera entrepreneurs, the government has also allocated financing amounting to RM500 million to be disbursed through Perbadanan Usahawan Nasional Bhd (PUNB) and MARA. As of Sept 18, a total of RM16.22 million had been channelled via PUNB, benefitting 41 Bumiputera businesses. MARA provided working capital financing to help COVID-19-impacted Bumiputera entrepreneurs, including those in the private education sector, with a maximum loan amount of RM1 million and a financing rate of 3.5 per cent per annum. On the ePENJANA Credits in e-Wallet scheme for those earning less than RM100,000 annually, he said 11.15 million people had successfully received RM50 in their e-wallets with a total value of RM557.46 million as of Sept 18.

Malaysia's economic activity outcome to improve in Q3

According to the Department of Statistics Malaysia (DOSM) chief statistician Datuk Seri Dr Mohd Uzir Mahidin, Malaysia's economic activity outcome for the third quarter (Q3) is expected to improve, given the government's various stimulus packages to support overall economic growth. The economic recovery has begun with the reactivation of economic activities and was reflected by macroeconomic indicators in July, marking the preliminary indication for Q3. This is in line with the Leading Index, which suggests an economic recovery in the near term and projects a brighter economic prospect for next year. This scenario was attributed to the increase in the total labour force at 15.82 million persons in July 2020, from 15.76 million the previous month. The unemployment rate also dropped to 4.7 per cent in July compared with 4.8 per cent in the preceding month. In terms of turnover, sales value of the manufacturing sector increased to RM119.3 billion in July, growing 2.1 per cent month-on-month. Wholesale and retail trade also recovered in July, generating RM108.7 billion sales volume with a growth rate of 5.6 per cent compared with the previous month. The favourable sales growth in this sub-sector was largely contributed by automotive sales following the effective tax relief strategy by the government. In terms of Malaysia's merchandise trade, July recorded an increase in total trade amounting to RM159.9 billion compared to RM144.7 billion the previous month. In July, total exports increased by 11.7 per cent while imports rose 8.7 per cent. On a year-on-year basis, exports increased by 3.1 per cent while imports declined in July this year. In August, both exports and imports recorded a decline, however, trade balance continuously remained surplus.

This week, on Thursday (01Oct), the Ringgit gained to 4.1480 against the USD from 4.1670 on Monday (28Sep). Meanwhile, the Ringgit was 3.0423 to the Sing Dollar on Thursday (01Oct). On Monday (28Sep), the FBM KLCI was up 2.52 points or 0.17% to 1511.66 from previous Friday's close of 1509.14. As at Friday (02Oct) 10:00am, the FBM KLCI shed 16.93 points to 1494.73 trending down towards four months low since June 2020. Meanwhile US stocks were higher after the close on Thursday, as gains in the Consumer Services, Technology and Consumer Goods sectors led shares higher. At the close, the Dow added 0.13% to 27,816.90 and the NASDAQ climbed 1.42% to 11,326.51.

HOT STOCKS

Price & Volume Distribution Charts (Over 5 trading days as at yesterday)

Technical Analysis

Definition

Non-Shariah compliant stocks with Technical Analysis showing the closing price Yesterday is higher than previous closing price and 5-days Moving Average Price with Volume Spike

Chart Guide

Volume Distribution Chart is a statistical interpretation of the current sentiment on each stock in graphical format. The highest bar categorized as >150k is likely to be traded by institutions or super dealers, while the lowest bar categorized as <15k usually represents retail investors. "Buy Up" refers to more buyers snatching up the lots queued at selling price. "Sell Down" refers to sellers selling their shares to the buying queue.

ShareInvestor WebPro > Screener > Market Screener (FA & TA) > select BURSA > add criteria

GROWTH STOCKS

Price & Total Shareholder Return (As at yesterday)

Fundamental Analysis

Definition

A growth company is any company whose business generates significant positive cash flows or earnings which increase at significantly faster rates than the overall economy. A growth company tends to have very profitable reinvestment opportunities for its own retained earnings.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.

ShareInvestor WebPro > Screener > Market Screener (FA & TA) > select BURSA > add criteria

Boustead Holdings Berhad

Boustead Holdings Berhad

Boustead Holdings Berhad (**BSTEAD**) wishes to announce that the Company had today received a press notice from Lembaga Tabung Angkatan Tentera informing that there has been no material development in respect of the Proposal subsequent to the press notices issued by LTAT which have been set out in the Announcements. As highlighted in the Announcements, the Proposal is subject to, amongst others, the finalisation of the structure of the Proposal, the requisite funding for the Proposal and the required regulatory approval(s) for the Proposal. The company wishes to highlight that, according to the press notice issued by LTAT, the press notice issued by LTAT does not amount to a firm intention by LTAT to undertake the proposal. Accordingly, there can be no certainty that LTAT will proceed with the proposal.

Bursa Malaysia Berhad
