Bursa Malaysia embarks on new strategic road map

According to Bursa Malaysia Bhd chairman Tan Sri Abdul Wahid Omar, the exchange has embarked on a new strategic roadmap that will outline its goals and key initiatives over the next three years. The initiative is part of the stock exchange operator's development plans to move forward. "As we take our first step forward, we must take into account the lessons learned during the pandemic, while we renew our commitment to supporting the market and contributing to the development of our economy." Bursa Malaysia is mindful of the potential risk and opportunities from emerging technologies, as well as the rapidly changing operating landscape. The global economy, catalysed by the delivery of Covid-19 vaccines in record time, is expected to heal from the pandemic. "Nevertheless, we must remain agile to respond robustly to powerful and defining trends on the horizon, such as the continuing innovations in financial technology to ensure that Bursa Malaysia continues to make progress and remains relevant to our stakeholders." Meanwhile, chief executive officer Datuk Muhamad Umar Swift said the new strategic roadmap will be built on five pillars, namely to strengthen its core business (securities market), diversifying the derivatives business, positioning Bursa Malaysia as the global hub for Islamic capital markets, providing new and improved services to the capital market and embedding sustainability within its organisation and marketplace. "Our 2021 to 2023 strategic roadmap focuses broadly on three main strategies, namely product expansion, ecosystem development as well as capacity and capabilities building. The strategic roadmap would entail various initiatives to increase market vibrancy, including attracting a wider and more diverse investor base, as well as collaborating with strategic partners, such as working with key institutional investors to progress towards more sustainable offerings. "We are also looking to roll out several new products and asset classes, while building our capabilities in fintech via proof-of-concepts, such as our blockchain initiatives and exploration of artificial intelligence." Despite the economic uncertainties introduced by the Covid-19 pandemic, Bursa Malaysia is confident that the government's stimulus packages, the gradual reopening of the economy and the progress of the Covid-19 vaccination efforts will aid in the country's economic recovery and maintain the buoyancy of the markets. "Our efforts to increase market vibrancy and liquidity prepared our market to support the increase in retail participation and the emergence of millennials in the securities market. Leveraging this positive momentum, the exchange will continue to introduce new initiatives and widen product offerings to enhance Bursa Malaysia's attractiveness for a new generation of investors. Bursa Malaysia has been working closely with regulators to ensure market efficiency, as well as improve market accessibility and liquidity.

Reopening of more sectors reduces national losses to RM300mil a day

According to Finance Minister Tengku Datuk Seri Zafrul Abdul Aziz, the reopening of more economic sectors under the second phase of the movement control order (MCO 2.0) has succeeded in reducing the

“ Reopening of more sectors reduces national losses to RM300mil a day ”

country's losses to RM300mil a day compared to RM2.4bil a day during the MCO 1.0. The MCO 2.0 allowed more economic sectors to operate than the previous one to balance between the health aspects of the people and the current economic pressures. During the first MCO, the country suffered a loss of RM2.4bil a day and if it is implemented continuously, surely the economic system, including the public health system, will paralyse. The country has managed to limit the number of deaths due to Covid-19 to a 0.3% ratio, or in the lowest 5.0% category globally. The effectiveness of the government's measures to curb the spread of the Covid-19 pandemic had also been recognised by the international credit rating agency, Moody's, which maintained Malaysia's A3 rating with stable projections in January this year. Moody's also expects the Covid-19 pandemic not to have a long-lasting effect on the country's economic structure. Therefore, the current and subsequent waves of contagion will only delay but not hinder the country's economic recovery towards a higher and sustainable growth path. The success of this rating was driven by a strong economic foundation, good fiscal discipline including the support of economic sector diversification. However it depended heavily on the country's ability to curb the pandemic and also implement continuous recovery in external demand. Although Malaysia experienced a contraction in the gross domestic product (GDP) of 5.6% in 2020, this figure was better than the initial projections by international organisations such as the International Monetary Fund (-5.8%), the World Bank (-5.8%) and the Asian Development Bank (-6.0%). Malaysia's performance was better compared to regional peers such as Thailand (-6.1%) and the Philippines (-9.5%) and other countries such as the United Kingdom (-9.9%).

Publisher's Note: Check out Page 4 for our new weekly column **Behind The Action** for an insight of issues that impact the Economy and the Markets.

Eye On The Markets

This week, on Thursday (4Mar), the Ringgit was 4.0565 against the USD from 4.0555 on Monday (1Mar). Meanwhile, the Ringgit was 3.0446 to the Sing Dollar on Thursday (4Mar). On Monday (1Mar), the FBM KLCI closed at 1567.14. As at Friday (5Mar) 10:00am, the FBM KLCI was up for the week at 1585.76. Over in US, the overnight Dow Jones Industrial Average closed down 345.95 points (-1.11%) to 30,924.14 whilst the NASDAQ shed 274.28 points (-2.11%) to 12,723.47.

5 Singapore Growth Companies with Positive Prospects

A growth company is one whose business generates remarkable increase in revenue and earnings at a significantly faster rate than the overall economy. Growth companies stand in contrast to mature companies - those that tend to report stable revenue and earnings with little to no growth. Such companies generally do not pay dividends but if your portfolio constitutes a good growth stock, you can anticipate capital gains when you sell them in future.

Growth companies tend to have very profitable reinvestment opportunities such as reinvesting into its own existing business or conduct merger & acquisition to grow the company on a larger scale.

1 AEM Holdings Limited (SGX: AWX)

For AEM's trailing 12-month financial performance, it has registered a 38% growth rate to S\$446.19 million. This was due to the revenue growth from its Equipment System Solution segment, which accounts for majority of its total revenue.

[More analysis on AEM, click here.](#)

2 Union Gas Holdings Limited (SGX: 1F2)

For Union Gas's trailing 12-month financial performance, it has recorded a revenue growth of 11.2% to S\$87.61 million. The growth was primarily driven by strong performance in its Retail LPG business and partially offset by Diesel and CNG businesses.

[More analysis on Union Gas, click here.](#)

3 UMS Holdings Limited (SGX: 558)

For UMS's trailing 12-month financial performance, its revenue has witnessed a 21.86% increase to S\$160.74 million. The growth was due to the strong performance of its core semiconductor segment, which has registered higher sales of Semiconductor Integrated System.

[More analysis on UMS, click here.](#)

4 Alliance Healthcare Group Limited (SGX: MIJ)

For Alliance Healthcare's trailing 12-month trailing financial performance, its revenue growth rate was at 5.38% to S\$45.08 million. The growth was contributed by the maiden revenue contribution from new Mobile and Digital Health Services segment and increase in local sales of Pharmaceutical Services segment.

[More analysis on Alliance Healthcare, click here.](#)

5 Moya Holdings Asia Limited (SGX: 5WE)

For Moya Asia's trailing 12-month financial performance, its revenue has grown by 11.47% to S\$229.40 million. The increase was mainly due to consolidation of the profit and loss of Obor Infrastructure Pte. Ltd. and its subsidiaries into the Group's financial statements. Moya Asia also experienced an increase in the water sales volume consumed by households due to the increase in hygiene awareness.

Investors take cover on rising bond yields

Markets

The past five trading days saw global markets reacting to a host of economic data points, vagaries of the financial markets and the tail-end of the 4Q results season for companies with financial year ending 31 December 2020. After hitting fresh record highs and just within a whisker of the 32,000 mark, the Dow succumbed to the selling pressure late last week and this week on inflation despite US Federal Reserve assurance that it remains committed to support the markets with its planned US\$120bil bond buying program.

Although markets were also calmed by comments of a Fed official, the surge in bond yield caused investors to be jittery. Nevertheless, following the US House of Representative's approval of US President's stimulus package of US\$1.9 trillion and more positive signs of Covid-19 cases easing, helped to sustain market sentiment.

Economy

In economic news, the release of Purchasing Manager Index (PMI) across the globe saw few surprises. The IHS Markit's final Manufacturing Purchasing Managers' Index (PMI) for Eurozone

jumped to a three-year high of 57.9 in February from January's 54.8 while the US' Institute of Supply Management (ISM) manufacturing index rebounded to 60.8 last month from 58.7 in January - the highest level since February 2018. The US' ISM non-manufacturing gauge meanwhile surprisingly weakened to 55.3 from 58.7. The Chinese PMIs were weaker, with February manufacturing gauge slid to 50.6 from 51.3 in the preceding month, while the non-manufacturing PMI too eased by one point to 51.4 in February.

Locally, several key economic data points were released. The first data was the January 2021 inflation reading, which came in at -0.2%, confirming the deflationary trend. Malaysia's January trade data was impressive as exports grew by 6.6% y-o-y to RM89.6bil while trade surplus jumped to RM16.6bil, some 38% higher y-o-y. In other economic news, the banking sector kicked off the year 2021 with a loans growth of 3.8%. Meanwhile, the IHS Markit's PMI for Malaysia for the month of February slipped to 47.7 from 48.9 a month ago. As widely expected, the Monetary Policy Committee (MPC) left interest rate unchanged. This is the fourth time the MPC had stood pat since it cut the Overnight Policy Rate (OPR) by 25bps to 1.75% in July 2020.

Corporate

In corporate news, most of the companies that reported their season ending financial year ended 31-Dec quarterly results showed that corporate Malaysia's 2020 performance was relatively better than expected as companies that beat expectations outpaced those who came in below expectations by a ratio of 2:1. In other news, AMMB Holding's RM2.83bil fine imposed by the Minister of Finance in relation to 1MDB was indeed a surprise to investors.

Equity

In terms of equity market's performance, The KLCI and Jakarta Composite Index was relatively flat week-on-week but other South East Asian markets were generally firmer, rising by between 1.4% to 2.5%. Other major indices were weaker for the period up to 4th March with losses ranging from 0.4% and 4.4%.

In terms of market participation, local retailers were biggest buyers of the market for the period between 25th Feb to 3rd March with net buying interest valued at RM490mil while local institutions were net sellers valued at RM960mil. The Ringgit meanwhile was last seen at RM4.0575 to the Dollar, down 0.4% week-on-week.

GROWTH STOCKS

Price & Total Shareholder Return (As at Yesterday)

Fundamental Analysis

Definition

A growth company is any company whose business generates significant positive cash flows or earnings which increase at significantly faster rates than the overall economy. A growth company tends to have very profitable reinvestment opportunities for its own retained earnings.

Chart Guide

Total Shareholder Return (TSR) combines share price appreciation and dividends paid to show the total return to the shareholder expressed as a percentage.

AFFIN Bank Berhad

AFFIN Bank Berhad (**AFFIN**) recorded a Net Income of RM2,264 million for the financial year ended 2020. This was an 18.3% increase in Net Income year-on-year on the back of higher Non-Interest Income, particularly from gains on financial instruments. The Group's Profit Before Tax was RM386.7 million for the financial year ended 2020, a decrease of 42.9% as compared to RM677.0 million in the previous financial year. This was mainly attributed to higher allowances for credit losses, particularly COVID19 related pre-emptive provisioning, higher operating expenses and a one-off modification loss relating to COVID19 relief measures of approximately RM80 million. The Bank has declared a dividend of 3.5 sen per share in respect of the financial year ended 31 December 2020.

AirAsia X Berhad

The Board of Directors of AirAsia X Berhad (**AAX**) is pleased to announce the unaudited consolidated results of AirAsia X and its subsidiaries for the quarter ended 31 December 2020. The net operating loss for the Group in 4Q20 was RM390 million. The Group recorded a loss before taxation of RM174 million for the quarter under review as compared to loss before taxation of RM308 million in 3Q20. In the current quarter and financial year ended, there has been no interest income, other income including investment income, interest expense, depreciation and amortisation, provision for and write off of receivables and inventories, gain or loss on disposal of quoted and unquoted investments or properties, impairment of assets, foreign exchange gain or loss, gain or loss on derivatives and/or exceptional items except as disclosed either in the consolidated income statements and/or notes to the unaudited financial statements.

APM Automotive Holdings Berhad

APM Automotive Holdings Berhad (APM) revenue declined by 7.2 % in Q4'20 to RM358.6 million from RM386.3 million in Q4'19 mainly due to lower demands from OEM customers of the Interior and Plastic Division, as most of the parts had reached End of Production in Q4 2019 and first half of 2020. In line with the reduction in revenue, the Group's Profit Before Tax reduced to RM14.4 million from RM16.8 million in the same quarter of last year. The reduction in the Group's revenue and bottom line in Q2 2020 can also be seen on a year-to-date basis, as the impact of the COVID-19 pandemic grew steadily from the beginning of the year and gathered pace particularly from implementation of the MCO on 18 March 2020 but decreased gradually resulting from implementation of the milder CMCO and subsequently, the RMCO. Consequently, the Group's revenue for the year under review reduced by 24.9% to RM1,123.5 million from RM1,496.9 million a year ago. In tandem with the decrease in revenue, the Group's pre-tax profit dropped by 77.6%, from RM68.8 million to RM15.4 million as production overheads and administrative expenses remained relatively fixed.

AYER Holdings Berhad

AYER Holdings Berhad (**AYER**) recorded revenue of RM13.8 million and profit before tax of RM0.7 million respectively. These represent a decrease of 41.6% and 89.7% in revenue and profit before tax respectively as compared to the previous corresponding quarter. For the current 12 months period, the Group recorded revenue of RM49.1 million and profit before tax of RM11.2 million respectively. These represent a decrease of 27.1% and 34.7% in revenue and profit before tax respectively as compared to the previous corresponding period. The Board of Directors is pleased to propose a first and final dividend of 4.10 sen per ordinary share in respect of the financial year ended 31 December 2020 for the approval of the shareholders at the forthcoming Company's 110th Annual General Meeting.

Bursa Malaysia Berhad

Bursa Malaysia Berhad (**BURSA**) recorded a Profit After Tax, Zakat and Minority Interest of RM377.7 million for the financial year ended 31 December 2020, a 103.2% increase from RM185.9 million reported in the previous financial year ended 31 December 2019. The increase in PATZAMI was due to the improved performance in the Securities and Derivatives Markets, which recorded a higher operating revenue of RM778.8 million from RM480.1 million in FY2019, an increase of 62.2%. This is Bursa Malaysia's highest full-year financial results since its listing in 2005.

Ekovest Berhad

Ekovest Berhad (**EKOVEST**) recorded a revenue of RM358.948 million and profit before tax of RM9.268 million in the current quarter as compared to revenue of RM313.768 million and profit before tax of RM14.714 million in the immediate preceding quarter. In the current reporting quarter, the Group's revenue has increased mainly due to the consolidation of PLS's results. However, the revenue for toll operations segment registered a lower revenue of RM32.30 million as compared to RM43.713 million in the immediate preceding quarter due to the extended implementation of MCO which has decreased the traffic volume for the month of October 2020 to December 2020. Despite an overall increase in the Group's revenue, a lower profit before tax was recorded mainly due to provision for additional cost as a result of COVID-19 impact.

GDEX Berhad

GDEX Berhad (**GDEX**) revenue for the current quarter and period ended 31 December 2020 increased 25.2% and 27.9%, the group profit before tax increased 26.7% and 35.1% as compared to the preceding year corresponding quarter and period ended 31 December 2019. Higher revenue reported in the current quarter and period ended 31 December 2020 as compared to the preceding corresponding quarter and period ended 31 December 2019 was mainly due to increase in demand for the delivery services from online business activities, especially under the current Covid-19 pandemic. Besides, the better performance was also due to increase in demand for the logistics and warehousing services, contribution of sales revenue from Vietnam subsidiary company, as well as the operational efficiencies as a result of digitalisation of internal system and processes. The revenue and profit before tax reported in courier services segment for the current quarter ended 31 December 2020 increased 22.4% and 13.3% respectively as compared to the corresponding quarter ended 31 December 2019. Better performance for the current quarter under review due to increase in demand for the delivery services from the online business activities under current Covid-19 pandemic and also improvement in operational efficiencies as a result of digitalisation of internal system and processes.

Hengyuan Refining Company Berhad

The Board of Hengyuan Refining Company Berhad (**HENGYUAN**) hereby announces its unaudited financial results for the fourth quarter ended 31 December 2020. Revenues for the fourth quarter and financial year ended 31 December 2020 were lower against the comparative periods as market oil product prices were lower by 33% for both comparative periods. Sales volumes for the current quarter and financial year ended 31 December 2020 were also lower at 9.0 million barrels and 35.1 million barrels respectively, compared to the 10.2 million barrels and 41.9 million barrels recorded in the comparative periods. These resulted from a drop in local demand for oil products following the implementation of various phases of Movement Control Order by the Malaysian government since mid-March 2020.

Hock Seng Lee Berhad

Hock Seng Lee Berhad (**HSL**) announced financial results for the year ended Dec 31, 2020. Revenue for the year was RM538.32mil with a net profit before tax of RM43.49mil. Revenue in 2019 was RM683.61mil and net profit before tax was RM74.10mil. Construction activities continued to account for the vast majority of the Group's revenue at RM480.41mil. 2020's lower revenues were mostly due to Covid-19's Movement Control Orders — hitting Q2 particularly hard — and the interruptions to a smooth operation due to subsequent start-stop of works arising from periodic Conditional MCOs.

ENGINEERS

HSS Engineers Berhad

The Board of HSS Engineers Berhad (**HSSEB**) is pleased to announce for the current quarter and current period to date under review, the Group recorded revenue of RM45.1 million and RM170.0 million respectively. Engineering design revenue increased marginally by RM2.9 million for the current quarter and increased substantially by RM27.9 million for the current year as compared to the corresponding quarter and previous year. This is attributable to the major on-going projects which includes East Coast Rail Line scheme and prelim design and Projek Perintis Sistem Pengangkutan Bus Rapid Transit di 3 Laluan Berkapasiti Tinggi dan Pembinaan Laluan Khas. As for construction supervision, in line with the progress of projects, construction supervision segment revenue for the current quarter and current year declined marginally by RM0.8 million or 4.3% and RM3.5 million or 4.9% as compared to corresponding quarter and year ended 31 December 2019.

McClean Technologies Berhad

McClean Technologies Berhad (**MCLEAN**) recorded revenue for the current financial quarter decreased by 3.73% as compared to the previous corresponding quarter. The decline is mainly from surface treatment services. The overall gross profit margin decline to 25.94% for the current financial quarter as compared with 28.34% in the previous corresponding quarter as a result of change in precision cleaning product mix. There were lower cleanroom assembly services revenue in the current financial quarter as compared with previous corresponding quarter. The Group's administrative expenses decreased by RM1,428,000 as compared to the previous corresponding quarter mainly due to cost reduction in indirect staff salaries & benefits and lower legal & professional fees. The Group's other expenses decreased by RM608,000 mainly due to net decrease in bad debts written off and loss on disposal of property, plant and equipment approximately RM459,000 and RM350,000 in the current financial quarter as compared with previous corresponding quarter. The Group's other income increased by RM2,645,000 as compared to the previous corresponding quarter mainly due to the compensation received by the company approximately RM2,586,000 in the current financial quarter as compared with previous corresponding quarter. Overall, the Group reported a profit before tax of RM2.671 million in the current financial quarter as compared to a loss before tax of RM1.555 million in the previous corresponding quarter.

Salcon Berhad

Salcon Berhad (**SALCON**) achieved higher revenue amounting to RM61.58 million as compared to RM59.05 million for the same period in the preceding year or an increase of 4%. Loss before taxation of RM487,000 was recorded in the current quarter as compared to profit before tax of RM4.35 million for the same period in the preceding year substantially attributed to losses from joint venture companies. In the Construction Division, revenue recorded in the current financial quarter was higher by 3% as compared to the same period in the preceding year. The Division recorded loss before tax of RM3.54 million as compared to profit before tax of RM12.32 million for the same period in the preceding year due to losses from joint ventures companies. The Property Development Division has recorded a loss before tax of RM893,000 as compared to loss before tax of RM1.54 million for the same period in the preceding year due to lower finance costs in the current financial quarter. In the Trading and Services Division, revenue was higher by 17% as compared to the same period in the preceding year. The Division recorded a loss before tax of RM2.04 million as compared to loss before tax of RM3.44 million for the same period in the preceding year due to higher cost of sales in the preceding year. In the current financial quarter, the Discontinued Operations has recorded loss before tax of RM625,000 due to de-registration of Salcon Services (HK) Limited.
